

BRITISH-GREEK TROOPS ENTER ATHENS

FORMOSA HIT
IN FORCE BY
B29 BOMBERSINNER JAP DEFENSE
RING JOLTED IN
AIR ASSAULT

U. S. Pacific Fleet Headquarters, Pearl Harbor, Oct. 14. (AP)—American B29 Super-Fortresses from China bombed Formosa in force today (U. S. time), the War Department announced, putting the army in partnership with the navy in a week of devastating raids on Japan's inner defenses.

Gen. H. H. Arnold in Washington said the big bombers, in a larger number than ever engaged in any previous attack, centered their Formosa strike on Okayama, "the most important air target south of Japan proper," and returning crewmen's reports "indicate a successful attack."

(Tokyo radio said the Super-Fortresses were preceded by two Formosa raids by 450 American carrier planes. The U. S. navy has not announced such raids.)

With the navy's summing up of its four-day score on Japan—140 ships sunk or damaged and 525 planes destroyed or damaged in blows initiated Monday in the Philippines-Japan area—newspapermen here were permitted to speculate that carrier forces were still prowling Nippon seas.

May Attack Philippines
Indications pointed toward an approaching American invasion of the Philippines, or perhaps even Formosa or the Ryukyu Islands above Formosa, was a near possibility.

The navy's strikes at the Ryukyu Islands Monday, at Luzon in the Philippines Tuesday and the Formosa attacks Wednesday and Thursday took a heavy toll of Japanese shipping, further emphasizing the enemy's problem of supplying its garrison of an estimated 150,000 troops in the Philippines.

Revising the figures on the Ryukyu strike, Adm. Chester W. Nimitz said 46 enemy vessels were sunk, including a destroyer escort and four small submarines, and 11 other ships probably were destroyed. Twenty ships were damaged. Aside from these 77 vessels, 50 smaller craft of lesser tonnage but nonetheless important as supply elements, were sunk or probably sunk.

Nimitz said that organized enemy resistance in the southern Palau Islands had ceased. Marines and army troops are cleaning out Japanese remnants on Pelicid and Angaur Islands. The Palau offensive started Sept. 15, and gave the Americans control of 12 islands 515 miles east of the Philippines.

Hungary Reported
Asking For Peace

BY WADE WERNER
London, Oct. 14 (AP)—Hungary, her capital helpless in the path of the Red army, has sent a delegation to Moscow to ask for peace, the Ankara radio said tonight.

There was no confirmation of the report, which said that the delegation "is already on its way," but there have been persistent reports all week that the Hungarians were seeking an armistice.

Associated Press Correspondent Daniel De Luce said in a dispatch from Moscow that the political circumstances surrounding the Red army's conquest of Hungary "may be compared" with those under which the Italian armistice was kept secret for five days. The point was not further amplified and several paragraphs were missing from the dispatch, perhaps a result of censorship deletions.

Weather

(Reported by U. S. Weather Bureau)

Seek Clue In Death
Of Hollywood Heiress

Hollywood, Oct. 14. (AP)—Georgette Bauerdorf's generosity to service men, sheriff's investigators said today, may have led to the slaying of the 20-year-old heiress in her apartment last Wednesday night.

The Hollywood Canteen hostess had been accustomed to giving rides to soldiers and sailors, entertaining them at night clubs and loaning them money, her friends told the officers. "She had the means to do it and was interested in service men," said Mrs. Rose Gilbert, secretary to her father, George Bauerdorf, wealthy oil and mining man. "She used to show them the sights and foot the bills."

From manifold finger prints in the apartment and on her automobile, found abandoned yesterday in a negro residential district ten miles away, investigators hoped to develop a clue to the man who they believe assaulted her and then crammed a wash cloth down her throat and left her in an overflowing bathtub.

Dr. Frank R. Webb, county autopsy surgeon, said his examination showed Miss Bauerdorf had been strangled to death. "There was little water in her lungs, he said, and no indication that she had drowned."

Search centered on a soldier who Miss June Ziegler, a friend of the dead girl who had served as a hostess with her at the Hollywood Canteen Wednesday evening, told officers "kept cutting in on her all the time" and forcing Miss Bauerdorf to jitterbug with him.

She said the man was about 28 years old, of average height, with an olive skin and a very dark complexion. Miss Bauerdorf's body, clad only in the top part of her pajamas, was found floating in her bath tub. Sheriff's Lt. Garner Brown said she had been raped.

TITO'S FORCES
IN BELGRADE

Partisans And Russians
Enter Yugoslav
Capital

RICHARD KASISCHKE

London, Sunday, Oct. 15 (AP)—Russian and Yugoslav Partisan forces fought their way into the 2,000-year-old fortress city of Belgrade yesterday and began a street battle against a doomed German garrison whose commander and staff fled, Marshal Tito's headquarters announced last night.

With Berlin acknowledging that "strongly motivated" Soviet forces had reached the Yugoslav capital and Moscow telling of the capture of its suburbs, the fall of the city was expected shortly.

In Hungary the fate of that last big Axis satellite nation was being decided in great, four-day-old tank battles raging on the Magyar plains between Szolnok, 50 miles southeast of Budapest and Debrecen, 115 miles east of the Hungarian capital. Budapest's leaders were reported seeking armistice terms.

A late DNB German news agency report said the Hungarian battle was in a "complete state of flux," and said the bitter fighting was at Debrecen, last big escape route for German and Hungarian forces fleeing from Transylvania. DNB added: "This grand-scale battle is no longer being fought by tanks alone but by masses of infantry and other troops."

Moscow announced that Russian troops had reached Belgrade's outskirts, apparently allowing the Yugoslavs the honor of being the first to announce major developments inside the capital. Kurnozov, on the edge of Topider Park, which is on the southern side of Belgrade, was among the Russian localities swept up, the Russian communique said.

Escaped Jackson
Convict Captured

Battle Creek, Mich., Oct. 14 (AP)—James McClannahan, 31, one of seven convicts who escaped from Southern Michigan prison October 6, was captured here this afternoon after he had been chased on foot for several blocks by a patrolman who recognized him from a picture he had seen in a newspaper.

Chicago Woman
Suicide Victim

Chicago, Oct. 14 (AP)—A coroner's jury returned a verdict of suicide while despondent today in the death of Mrs. Audrey McLaughlin Hooke, 37, after several witnesses testified the former dancer and model, found shot fatally in the Lake Shore park recreation house Aug. 14, frequently had threatened to kill herself.

VICTIM IN DEATH—Clad only in her pajama uppers, the body of Georgette Bauerdorf, 20, brunt daughter of G. O. Bauerdorf, wealthy New York oil man, was found Thursday, Oct. 12, face down in the bathtub of her luxurious Hollywood apartment under mysterious circumstances. (NEA Telephoto.)

JAPS CAPTURE
CHINESE TOWN

Kweiping Falls After All
Defenders Are
Killed

BY SPENCER MOOSA

Chungking, Oct. 14 (AP)—Japanese troops, reinforced until they outnumbered the defenders four to one, have captured Kweiping in southern Kwangsi province after killing the Chinese garrison there to the last man, the Chinese high command announced tonight.

Violent street battles preceded the fall of the town, and enemy dead litter the area, a communique said. The Japanese launched the final attack Thursday. No estimate was given of the number of Chinese slain.

The fall of Kweiping opened a new phase of the Japanese drive against Kweilin, key defense center for southeast China and provincial capital of Kwangsi, 55 miles to the north.

The way appeared open for a drive against Luchow, capture of which would outflank Kweilin on the south. At the same time, the Japanese were driving on the city from the north, along the Hunan-Kwangsi railway.

Outcome of the battle for Kweilin will be the turning point of the war with Japan, Gen. Pai Chung-Si, China's deputy chief of staff, predicted in an interview on the Kwangsi front. He said the defenders would make the city China's Stalingrad.

Gen. Pai foresaw violent changes in the world war situation within the next three months, and said large-scale offensive would be launched in the Pacific against Japan before the end of the year.

Famine Menaces
All Of Holland

Washington, Oct. 14 (AP)—Famine is threatened in the Netherlands, Dutch officials reported today, and spite destruction by the Germans is so widespread that the Dutch government will ask financial aid from UNRRA despite earlier agreements to pay for all relief as it is received.

Dr. A. Louden, the Netherlands ambassador, called at the White House to discuss Holland's plight with President Roosevelt while Baron Wilhelm van Boetzlaer, minister of legislation, told a news conference of the decision to ask United Nations Relief and Rehabilitation Administration aid. The minister, who returned from London Wednesday, predicted famine in Amsterdam, the Hague, Leyden and Rotterdam by next week end if some means is not worked out, meantime, to get food to those cities. They have been isolated from food supplies, he said, as a result of the railroad strikes asked by the Allies.

AACHEN LEFT
TO ITS FATE
BY HUN ARMYYANKS DIG NAZIS
OUT OF RUBBLE
IN LOST CITY

BY HOWARD COWAN

London, Oct. 14 (AP)—U. S. troops converged from three directions tonight on the heart of Aachen, which at least for the moment was left to its fate by German relief columns so badly mauled outside the stricken city that for 24 hours they have been unable to muster a counterattack.

From the northeast, the east and the southeast, the infantry dug the dwindling German garrison from houses and cellars, moving slowly through the rubble to hold down casualties, while long lines of civilians streamed from the burning city into the American positions.

The U. S. First army could afford to take its time, for the half-mile wide corridor leading from the city was as good as closed after a few small units were believed to have slipped in last night to swell the garrison to perhaps 2,000 men.

Tanks Knocked Out
Furthermore, the crack German infantry and tank divisions which threw the British out of the Arnheim bridgehead, then rushed south to Aachen, lay bleeding in the fields northeast of the city, numbed by aerial and artillery bombardment that knocked out more than 80 tanks.

Every effort to bring up more tanks in an attempt to throw the Americans from hard-won positions at the entrance to the great German plain had been frustrated, a high American officer said.

The British Second army to the north, moving up its lines toward the Maas river facing Germany midway between Arnheim and Aachen, hammered out a half-mile gain south of Overloon. They fought through mine, across the bodies of Germans who refused to yield an inch.

Escape Cut Off
Canadians on the seaward flank were under large-scale assault from strong enemy forces who were trying to drive them from positions astride the South Beveland causeway, where Dominion troops have cut off escape by land for Germans on the islands in the Schelde estuary.

Driving a mile south from their Schelde beachhead west of Antwerp, the Canadians were little more than two miles from linking up with comrades clinging to the eastern end of a bridgehead over the Leopold canal.

On the southern end of the 460-mile front, the German communique said the U. S. Seventh

Eleanor Gives \$25
Check To CIO Fund

Washington, Oct. 14 (AP)—Dorothy Rockwell, president of the Washington Newspaper Guild (CIO), said tonight that Mrs. Franklin D. Roosevelt had contributed \$25 to the CIO's political action committee through the Newspaper Guild.

Miss Rockwell said the first lady's check for that amount, made out to the PAC, had been received at the Guild office, Mrs. Roosevelt, author of a daily newspaper column, is a member of the Washington Guild.

The Roving Reporter

By ERNIE PYLE

Editor's Note: This is the 29th of the Ernie Pyle war columns we are reprinting while Ernie is on leave.

Northern Tunisia, April, 1943—We moved one afternoon to a new position just a few miles behind the invisible line of armor that separates us from the Germans in Northern Tunisia. Nothing happened that first night that was spectacular, yet somehow the whole night became obsessed with a spookiness that leaves it standing like a landmark in my memory.

We had been at the new camp about an hour and were still setting up our tents when German planes appeared overhead. We stopped work to watch them. It was the usual display of daring planes with the conglomerate sounds of

ack-ack on the ground and in the sky. Suddenly we realized that one plane was diving straight at us, and we made a mad scramble for foxholes. Two officer friends of mine had dug a three foot hole and set their tent over it. So they made for their tent, and I was tramping on their heels. The tent flap wouldn't come open, and we wound up in a silly heap. Finally it did open, and we all dived through the narrow opening all at once.

We lay there in the hole, face down, as the plane came smack overhead with a terrible roar. We were all drawn up inside, waiting for the blow. Explosions around us were shattering and loud, and yet when it was all over we couldn't find any bomb holes or anybody hurt.

But you could find a lot of nervous people.

Aachen Refugees
Welcome Yanks

Outside Aachen (AP)—About 3,000 German civilians evacuated from Aachen moved 1 day up a cobblestoned road of Nazi defeat.

This strange parade now plodding past is heading for a 20-acre area where civil affairs officers have arranged temporary shelter. Food for 5,000 German civilians has been ordered there.

All the people in this column are walking, carrying every sort of container from handbags to cloth baskets. Only the aged, babies, and the ill are brought out in trucks.

A man of about 60 stopped before one of our military policemen and told him in perfect English: "We are so glad you have come. We have waited so long."

FDR MAY TOUR
FOUR STATES

Gov. Dewey Will Speak
On Forum Next
Wednesday

BY D. HAROLD OLIVER

Washington, Oct. 14 (AP)—President Roosevelt may carry his fourth term campaign personally into Pennsylvania, Ohio and Illinois, in addition to his home state of New York, where an aggregate of 135 electoral votes are at stake.

It was said authoritatively today that these states are high on the presidential itinerary now under consideration, although the White House said no dates or places are ready for announcement.

Coincident with an announcement by Presidential Secretary Stephen Early that Mr. Roosevelt had declined an invitation to speak next Wednesday night on the New York Herald Tribune forum, Democratic spokesmen said the chances are good that he will speak in Philadelphia, Cleveland and Chicago, probably after his address on international affairs before the Foreign Policy association in New York City next Saturday night.

Dewey's Strategy Rapped
Early's statement that the president is "talking about" other speeches came after publication by the White House of a letter to the president from Adolf A. Berle, Jr., assistant secretary of state, which accused Governor Thomas E. Dewey, Republican presidential nominee, of making a "surprisingly dishonest effort" in his Charleston, W. Va., speech to make it appear that the present administration secretly hopes to "set up a Communist system."

Berle said Dewey "ripped a single sentence" from a memorandum Berle prepared in 1939 and put it forward "as the doctrine advocated, though the entire memorandum showed the exact contrary."

First B-29 Plane
Cost \$3,392,396.60

Dayton, O., Oct. 14 (AP)—It cost \$3,392,396.60 to build the first B-29 Superfortresses. Headquarters of the Air Technical Service Command announced that figure today on pointing out that it took 180,928 of the \$25 war bonds to build that first Superfortress. The Superforts now are costing approximately \$600,000 each.

DEWEY GOING
ON ROAD AGAIN

Speaks At St. Louis On
Monday, Pittsburgh
Night Of Oct. 20

BY JACK BELL
Albany, N. Y., Oct. 14. (AP)—Pressing his campaign in the doubtful states, Gov. Thomas E. Dewey, on the eve of his departure for St. Louis arranged to make a major campaign address in Pittsburgh the night of Oct. 20.

The Republican presidential nominee, who will leave tomorrow afternoon for a speech in St. Louis Monday night, dealing with what he called "The urgent need for honesty and competence in our national government," did not announce his Pittsburgh subject.

There was immediate speculation, however, that this speech, which will follow the governor's talk on "This must be the last war" at the New York Herald Tribune forum Oct. 18, would deal largely with the problems facing industry and labor in the postwar reconversion period. Thus far, he has made no "business" talk as such, but has touched on the subject in several speeches.

There was no comment from the governor's office on the White House announcement that President Roosevelt had declined to talk on the Herald-Tribune forum, which he customarily closes with an address.

Axle Plant Tied
Up By New Strike

Detroit, Oct. 14 (AP)—Production of axles for military trucks was halted in the Detroit plant of the Timken-Detroit Axle Company today by a strike of 7,500 employees attributed by a union spokesman to the disciplining of a union committeeman.

A spokesman for Local 174, United Automobile Workers (CIO) said the workers began leaving their jobs at the Melvindale axle plant of the company last night after the committeeman had been suspended. Today workers in the Detroit plant joined the strike.

A company representative at the Melvindale division said the committeeman was disciplined following a dispute with a plant superintendent.

Ozell Smoot of Oklahoma City entered Aachen proper between 3:00 and 4:00 a. m., central war time, Friday, By 9:15 a. m. infantrymen of a famous American division were digging and shooting dirty and bearded German soldiers out of Aachen, street by street, house by house, and block by block (NEA Telephoto.)

Eleanor Smith Admits
She Kidnaped Infant

Detroit, Oct. 14. (AP)—Prosecutor William E. Dowling announced today that Mrs. Eleanor Smith, 28 year old negro nursemaid has admitted that she abducted baby Bobby King, son of white parents, to hide from her husband the fact of her own baby's death.

She related, the prosecutor said, that her own baby died after premature birth in Chicago last June and that her husband, Eugene, was "so happy at the prospect of being a father, I didn't have the courage to tell him."

Her Own Baby Died
Mrs. Smith who pleaded innocent Friday to a charge of kidnapping four-months-old Bobby, son of Mr. and Mrs. Clarence King, is being held in jail. Her bond was set at \$50,000. The child was returned safely to his family after having been missing since September 30.

Said Dowling: "Her confession was made last Wednesday night, as I announced at that time. She begged me to withhold it because she did not want to hurt her husband or her mother or her family. She hoped they would believe she was innocent, and she wanted them to believe it as long as possible. So I agreed to withhold the confession."

"She told me that she and her husband, Eugene, wanted a baby," the prosecutor continued. "A year or so after they were married there was a miscarriage. About a year ago, she became pregnant, she said, and the baby was born dead, prematurely in Chicago last June."

"She couldn't bear to tell her husband she deliberately concealed the fact that her baby was born dead in Chicago."

"Just before she kidnaped Bobby, she prayed to God for guidance. She justified what she did by her own love for Bobby."

Dowling said he decided to give out the details of Mrs. Smith's statement today because he had learned she herself had made public some of its details.

Was Happy With Child
Dowling quoted Mrs. Smith as saying that after Mr. and Mrs. King left the house to go to a movie she played with Bobby for a while and suddenly took him in her arms.

Then, he said, she told him she was happy.

NAZIS GIVE UP
CORFU ISLAND
WITHOUT SHOTAMERICAN PLANES
HAMPER ENEMY
EVACUATION

BY NOLAND NORGAARD

Rome, Oct. (AP)—British and Greek troops, converging by sea and air today, occupied Athens and its nearby port of Piraeus and ended more than three years of tyrannical Nazi rule in the Greek capital.

A special communique announcing the liberation of Athens, taken by the Nazis in April, 1941, at the height of their Balkan conquests, said the operation was conducted by seaborne and airborne forces, but made no mention of any enemy opposition, indicating the truth of earlier unofficial reports that the Germans had withdrawn to the north and left the city in the hands of Greek partisans.

Food On Way
The landing force was carried into port by the British navy, including some Greek ships.

"British airborne troops, carried in aircraft of the United States army air forces, played a leading part in the operation," the communique said, but the precise role of the airborne forces was not stated.

Maj. Gen. R. M. Scobie has been appointed land task force commander in Greece and leaders of various Greek Patriot factions already have agreed to place their units under his orders, it was announced.

The seaborne units which landed and seized both the capital and the port appeared to be an advance force for a large relief expedition assembled to rush food and medical supplies and other essentials as soon as the country is liberated.

Earlier, the surrender to other British landing forces of the Greek island of Corfu and the entrance to the Adriatic, which had been believed to be strongly defended, was announced. Not a shot was fired in the Corfu operation.

Government Returns
Such German forces as have been in Greece in recent weeks were believed to be in full flight northward through Yugoslavia, hoping to reach their homeland before their last few routes of escape are finally snapped shut by the Russians and the Yugoslav Partisan forces.

There was no news of a small column of land forces which already has chased Nazi garrisons from the Peloponnese and captured Corinth. It was last reported moving northward.

It was considered likely here that the Greek government is returning to Athens with a new landing force to set up a provisional administration and begin preparations for plebiscites in

PLAN DISPLAY OF MAGNESIUM

Dow Chemical To Show Stripcoat Package Material

Midland, Mich. (AP)—Dow Chemical company announced today it had arranged an extensive display of magnesium products and for the first time will display stripcoat, an ethylcellulose packaging material for metal parts, at the National Metal Congress and War Conference displays in Cleveland, Ohio, October 16-20.

It will be the first of a series of shows in principal cities to bring industrialists and magnesium engineers together to furnish industry with specific help in the use of the light metal.

With all restrictions removed by the government from the use of the metal, an immense interest

in magnesium is developing, the Dow company reports.

Stripcoat was developed by Dow in answer to wartime demands of metal parts manufacturers for stepped-up packaging methods. Dow will demonstrate the machines by which the metal parts are given a hot melt dip which preserved, protects and packages the parts in one operation.

The coat is easily slit with a knife and removed. The parts are then ready for immediate use, having been protected against corrosion and mechanical damage.

New Ford Office Manager Is Named

Detroit, Oct. 14 (AP)—Announcement of the appointment of J. Russell Gnaou as office manager of the Rouge plant of the Ford Motor company was made today.

Gnaou for years secretary to Charles E. Sorenson was assigned to the company's public relations department following the Sorenson resignation last March.

As office manager he succeeds A. G. Moulton who becomes Dearborn branch manager.

Aircraft Industry To Be Center In Los Angeles

BY MARQUIS CHILDS

Los Angeles—While California may have some doubts about the future, there is a deep conviction that this region will become the center of the aircraft industry.

Los Angeles is to be the Detroit of the air age.

Talking with designers and manufacturers, you catch something of their enthusiasm. They believe that the new air age is not far away.

They concede there will be difficulties in the transition period: For two or three years, perhaps, while the industry is being scaled down to something like its peacetime size. But nothing—not even if eastern manufacturers are allowed to get a head start—will prevent southern California from taking and holding the lead.

Expect Two More Years.

Of course, they're still working full blast on war orders. A few weeks ago, a flurry of excitement was touched off when Washington passed along word that a cutback was imminent with the expected ending of the war in Europe. Long since, however, that has been countermanded, and manufacturers have been told to expect no change in production schedules until June or later.

The fact is that the big aircraft manufacturers on the West Coast expect to be producing for war for two more years, at the least. Not until 1946, as they figure it now, will they really be able to get going with the post-war plans now taking shape on a hundred designing boards.

The dean of the industry, it is widely recognized, is Doug Douglas of the Douglas Aircraft Co. Douglas is a designing genius who has also proved his administrative capacity. He directed his once small company in an expansion that has taken in well over a hundred thousand employees. In most of his plants he has operated without benefit of unions, although lately the CIO United Auto Workers has been catching up with him.

Douglas has an advantage in that he's making the C-47, the big passenger and cargo ship which the air transport command flies on the airplanes of the world. With minor changes, the C-47 will become the new Douglas DC-4 similar to, but much larger than the Douglas DC-3, which is in use today on a great many passenger lines. Besides the DC-4, Douglas is planning a much larger ship to

carry heavy passenger loads over long distances. Already, Douglas has more than a hundred million dollars in post-war orders on his books.

Has Backlog of Orders

But if Douglas is big, with imposing peacetime plans, there are others that rate as giants by normal standards. I talked with Robert Gross, head of the Lockheed Aircraft Corp., which has more than a billion dollars in government orders as a backlog. Gross is proud that, for more than 12 months, Lockheed has not been behind on a single war production schedule.

He talks with enthusiasm of Lockheed's plans for the future. Besides two smaller passenger ships, the Saturn and the Constellation, Lockheed is planning to produce the Constitution, which will take a capacity load of 12 paying passengers. It's the kind of ship, Gross explains, which will fly on the run to Hawaii at \$100 a round trip, or on the Rio de Janeiro run where the fare will be as low as \$100 or \$200 both ways.

The gleam really comes into Gross' eyes, however, when he pulls out of his desk drawer a sketch of the light plane he intends some day to manufacture for general sale. That, he says, is the big field. You sell a dozen passenger liners to an airplane company and that's that, because they last for ten years.

But turn this small plane out to cost about \$1,000 and your market, eventually, will be unlimited. Plans for this private plane have gone considerably beyond the sketch stage. Gross assured me that I could fly it if I could drive a motorcycle, or, for that matter, if I could ride a bicycle. He's playing with helicopters, too, but he believes they're too difficult to operate.

If these men have their way, and they are determined men with the know-how, mass production planes will some day come off assembly lines in southern California.

Checker Cab Told To Release Workers

Detroit, Oct. 14 (AP)—Edward L. Cushman, state director of the War Manpower Commission today ordered the Checker Cab Company of Detroit to release within 24 hours 98 employees he said had been hired without referrals or in violation of other WMC regulations.

Ancient Greek philosophers believed that there was only one chemical element, but didn't agree as to what it was.

Childs

Obituary

JAMES LA CROSSE

Funeral services for James La-Crosse, Escanaba Route One, were held at St. Patrick's church yesterday morning, with Rev. Fr. Norbert Freiburger officiating. Burial was in Lakeview cemetery. The pallbearers were Robert Wallo, Clifford Landerville, Murlin Bentley, Robert Frazier, Floyd Flynn Jr. and Clyde Kasbohm. Out-of-town persons who attended the funeral included: Mrs. Delvina Tollman, Mrs. Ethel Beaudry, Mrs. Della Humphner and Mrs. Amelia Morris, Marquette; Mrs. James Bedore, Mrs. Owen Carroll, Detroit; Mr. and Mrs. Elmer Anderson and Mrs. George Georges, Kenosha.

Mrs. Walter O'Connell was soloist of the mass and Mrs. William Ramspeck, organist. At the offertory Mrs. John Kress sang "O Jesu Deus Pacis," and at the close of the service, she sang "O Guiding Angel."

Wm. Straub Dies At Pinecrest Late On Saturday Night

William Straub, 55, died at 11 o'clock on Saturday night at Pinecrest Sanatorium at Powers, Mr. Straub had been ill almost continuously for the past 15 years.

He was born in Hartford, Conn., on February 24, 1889 and came to Escanaba 27 years ago. On November 27, 1917 he was married to Laura Young of Escanaba in this city. He was a wood worker. A member of St. Anne's Catholic church, he was also a member of the Holy Name society of Flat Rock.

Surviving in addition to his wife are the following sons and daughters: Mrs. Ernest Wallo, Escanaba; Mrs. Raymond Beer, Escanaba; William Straub, Jr., in the U. S. Marines, stationed at San Diego, Calif.; Edward, Lorraine, Theresa, Mary Ann and Shirley Jane of Escanaba.

The body was taken to the Alto funeral home to be prepared for burial but funeral arrangements have not been completed.

Eleanor Smith Confesses To Baby Kidnaping

(Continued from Page One)

wrapped the infant in a shawl, and by street car and bus took him to her own home.

He quoted her as saying the next 10 days were the happiest of her life, that she prayed each night for Mrs. King and although she knew what Mrs. King was suffering she couldn't give the baby up.

Dowling said Mrs. Smith told him she had been married before she met Eugene Smith and that the marriage ended in divorce.

Relating that on the Saturday night when she left the King home, Mrs. Smith felt no fear or remorse, Dowling said:

"She seemed relieved to tell me about it, and she spoke with conviction. I was not surprised, however, when she pleaded innocent in court. It was part of her desire, or her hope, that her relatives and friends would be spared the knowledge she was a kidnaper for as long as possible."

AACHEN LEFT TO ITS FATE BY HUN ARMY

(Continued from Page One)

army had gone over to the attack in strong force on a broad front east of Remiremont, 30 miles north of Belfort.

There was no Allied confirmation of this, but it was reported officially that the French First army in this area in an advance of about three miles from previously reported positions was nearing Cornimont, only 11 miles from the vital Schlucht pass through the Vosges mountains to the Rhine.

On Jan. 1, 1940, the total number of registered planes in the U. S. was 12,274, with a total of 31,264 certified pilots at the same time.

Old Orchard Farm

Annual Potato Harvest Is Completed

Old Orchard farm, along with most farmers in the Flat Rock area, last week completed the annual potato harvest and now will be able to definitely appraise the damage caused by the driest growing season in the history of this section.

At Old Orchard farm a field of six acres produced 1608 bushels of potatoes, or an average acreage yield of 268 bushels. That seems to be pretty close to the average in a section that suffered particularly heavy drought damage during the important potato growing months of July and August. Other sections of this and neighboring counties did not suffer so heavily from lack of rain, when it was most needed to produce a bumper crop and figures that will be revealed a little later will show above normal yields in fields not so far from the Flat Rock area.

Like other growers in the area Old Orchard's crop also suffered in a limited degree from grub damage to the crop that was har-

vested, so the actual amount of salable potatoes produced will not be definitely known until grading operations have been completed, just a little later.

Potato Crop Stored
And a perverse weather man persisted in making the potato harvest season anything but agreeable until most of the crop was out of the ground. Old Orchard started its exclusively Flat Rock and Cornell crew of harvesters in the field on Monday of last week. The first two days of the week were cold and most disagreeable. On Wednesday the sun came out for the first time in many days and almost ideal working conditions prevailed on both Wednesday and Thursday, but the last of the crop went to Frankie Barron's warehouse at 5 o'clock on Thursday afternoon, so the beautiful sunshine of Friday was just a total loss, as far as potato harvesting in Flat Rock was concerned.

Old Orchard's potato crop of this season is stored in Frankie Barron's big warehouse on the old Barron farm, next door to Old Orchard. To facilitate unloading operations in the warehouse this season Earl Paquin, a clever machinist who established a farmer's repair shop in Flat Rock more than a year ago, designed for Mr. Barron an unloading machine that greatly helped the work of the crews hauling potatoes from the field. The crane is on wheels and can be moved easily from one part of the warehouse to another. The potatoes are dumped from the truck into a hopper and an endless belt, operated by motor, carries the spuds up an elevator, that can be raised and lowered, to any point desired in the big bins. The contrivance saves not only a lot of hand labor, but proved a fine time saver in the first season of its use.

Now that Old Orchard's potato crop is safely in storage, the farm crew will get at the final big job of the season,—fall plowing and corn husking. One lone husker is already at work over in the corn field on the Tom Jones place, but the regular farm crew will give their immediate attention to fall plowing and conditioning of land for 1945 crops, while fair weather continues. It is believed that with both the tractor and the team in the fields every fair day, most of the plowing and disking can be finished this week. Then the whole crew will get at the job of getting the corn in the crib. Old Orchard's corn crop of this year is short, by reason of the long summer drought, but the grain that is finally harvested will be carefully conserved

through the winter feeding season and the manager believes he will have plenty of grain to carry the livestock through until another harvest season.

Pigs Are Fattening
The last batch of about 35 pigs is now in the fattening pen, with ground corn, ground oats and a commercial supplement, constantly before them in a self feeder and it is hoped that this gang of gourmandizers won't make too big a dent in the corn crib, before they can be hustled off to market.

The farm's five breeding sows, that have been on pasture ever since their litters of pigs were weaned early last summer, are now filling their stomachs with cull potatoes that were left in the field. Pickers were instructed to throw out all sun-burned and too badly grub damaged potatoes as they went up and down the rows, so that the portion of Old Orchard's crop that was unfit for storage, will not be wasted. It will provide fine sow feed for some time to come.

A telegram was received by Old Orchard's manager on Thursday announcing that the long awaited blue blooded sire for the farm's herd of Milking Shorthorns had started on his long journey from Guelph Junction, Ont. to Escanaba and the young animal is expected to put in an appearance most any day now. The breeder announced that test records for the young bull were accompanying the animal and no difficulty was expected in obtaining his transfer across the international border.

"Company days" for Ring, the farm dog, at Old Orchard, are just about over for this season. He had a great time entertaining guests when the farm's auction sale was held recently and last week the crew of potato pickers held his closest attention. From this time until next spring farm visitors will be few and far between, but Ring's a resourceful chap and will find something to keep him busy, no matter how dull the days may seem to just mortals.

War Fund Will Continue Until Boys Return Home

Only when the American armed forces are back in their homes, rather than when the German and Japanese wars end, will the task of the National War Fund be completed, it was voted unanimously by representatives from 32 states at the recent semi-annual meeting of the Fund's Board of Directors. The meeting coincided with the opening of the 10,000 community war fund campaigns being held in the 48 states and four territories.

"Victory over Germany, whenever it comes, will undoubtedly create shifts in certain agency programs, but may very well increase, rather than diminish, the need for our help," Winthrop W. Aldrich, President of the Fund, told the Board. Services to the armed forces must be maintained as long as we have men in Europe. Mr. Aldrich said, liberation of occupied lands will afford new opportunities for relief work; and the war in the Pacific will create continued demands for services such as USO, United Seamen's Service and War Prisoner's Aid.

John D. Rockefeller, Jr., also speaking to the Board, warned that "we are standing today on the dizzy heights of approaching victory in one of the most difficult chapters of this world war". With approach of victory there is a tendency to relaxation in the war effort, Mr. Rockefeller said and the American people must ask themselves the question, "have we the power to see it through?" "To see it through," said Mr. Rockefeller, "to preserve for all time the priceless values for which this war has been fought, to bring to fruition the results of the struggle, will take, with God's help, all the determination and the staying power of which we are capable."

Mr. Aldrich, in reporting on the work which has been achieved by the member agencies of the National War Fund, said that the full story was too extensive to be adequately told in a meeting but he pointed out that some "60,000,000 people in the world today find their lot a little easier because the National War Fund has succeeded in doing what we set out to do."

"We know," said Aldrich, "that USO-Camp Shows has 134 units overseas, and that today 583 entertainers in those units will give at least two and perhaps four performances before audiences of American fighting men, directly behind the fighting lines. We know that on an average, at least 1,000,000 American fighting men will today visit USO clubs. We know there are people in 31 geographical areas of the world today who are now getting our help. We know that as we meet here,

Bark River

Observes Pulaski Day
Bark River—Unlike the usual observance of October 12, which is celebrated in larger cities as General Casimir Pulaski Day, and

prisoners of war behind barbed wire are finding many kinds of relief from boredom and despair because of the money American people have given."

proclaimed nationally, the Bark River Pulaski club observed the day by wrapping and dispatching over a hundred Christmas parcels to servicemen and women overseas from the communities of Bark River and Harris townships. The committee in charge was Mrs. Joseph Kuharski, chairman, Mrs. Adolph Gonsheksi and Mrs. Matt Luchay.

When a paper sticks to a varnished table top in sticky weather it can be removed without marring the surface by rubbing with olive oil.

Welcome to Escanaba

IT IS in recognition of the close relationship between functions of the Office of Defense Transportation and the Office of Price Administration that the ODT is streamlining its district alignments to coincide with the OPA districts. As a result of this realignment, an ODT district office, embracing the entire upper peninsula of Michigan, will be established at Escanaba.

Escanaba is ideally located to serve the transport industry of the upper peninsula. The location of both the district OPA office and the district ODT office in this community will result in greater convenience to the transportation industry in the peninsula, particularly to commercial motor vehicle operators who in the past were required to transact their ODT business with the office in Green Bay.

The streamlining of ODT has resulted in the placing of responsibility for the processing of applications for temporary allocations of transport gasoline rations within the hands of OPA ration boards. Previously this task was handled by ODT at the Green Bay district office. The new arrangement is certain to prove more satisfactory to commercial vehicle operators because of increased convenience and the elimination of delays.

The people of Escanaba are happy to welcome to the community the staff members of ODT's upper peninsula district office.

It Gets Hotter

AS THE shortened wartime campaigns of the two major political parties of the nation, swing into action for the stretch drive for votes at the presidential election, only a little more than three weeks in the future, the issues involved become more outstanding as the tongues of the campaign orators become more acrid.

The New Deal-CIO Political Action Committee campaign, more and more stresses the indispensability of President Roosevelt at the coming peace table. It is their claim that the knowledge of the president of world affairs makes his presence, in fixing the terms of peace, a national necessity.

Republican orators are pointing the fingers of scorn at the Communist backing of the fourth term candidate and are stressing the fact that President Roosevelt pardoned Earl Browder, former Communist candidate for the presidency and that Browder is now actively supporting the fourth term candidate.

Clara Boothe Luce, brilliant Connecticut congresswoman, violently attacked the "indispensability" of President Roosevelt in a Chicago address on Friday night, of last week, when she boldly charged that it was the secret policies employed by President Roosevelt in international affairs that led this nation into the greatest war of all history. "Shall we trust the making of a new peace to the tired and shaking hands of a man who could not keep the one he inherited when he was young and strong," she questioned. "Although a majority of American people may forgive him, history never will, in the end. For he is the only American president that ever lied us into a war, because he did not have the political courage to lead us into it," she concluded.

A Universal Language

THE National Federation of Music Clubs looks optimistically ahead to music's playing a bigger part than ever in promoting international friendship and more enjoyable living in the postwar era.

Music is a universal language, and through it there can be developed a better understanding of the peoples of various nations, according to the leaders who spoke at the federation's recent convention in Tulsa, Okla. In their preparations for war, the dictators like Hitler and Mussolini glorified brute force and racial superiority. Those who cherish peace, however, believe that great literature, art, drama, music and, above all, a vital religion will be the tools for building a new world.

The National Federation of Music Clubs has outlined a far-reaching program for promoting a greater appreciation of fine music in the future. It is a program that could well be carried into every city and hamlet in America. Such efforts as school music, municipal bands, choral societies and Town Hall concert series, like we have here in Escanaba, are a good start toward the development of greater interest in this phase of cultural activity. Being universal, music can spread the message of peace and love of fellowmen, instead of hate and intolerance, throughout the world.

Record Harvest Forecast

THE Crop Reporting Board in Washington forecasts a "remarkable" production despite weather difficulties and the shortage of farm labor throughout the ag-

ricultural regions of the United States.

A corn harvest of 3,200,000,000 bushels, the largest ever produced in this country, is in prospect. The year's estimated wheat crop of 1,108,881,000 bushels still remains the largest on record, despite a decline of about six million bushels from the estimate of a month ago. Grain sorghums, hay, beans, peas, soybeans, flaxseed, potatoes and sweet potatoes also will be above levels not often reached in previous years, and the only important field crops that will be below average in production are rye and sugar beets.

Louis Bromfield, the noted novelist and gentleman farmer of Mansfield, Ohio, gloomily predicted last year that America faced starvation. Bountiful Nature, however, reveals Mr. Bromfield to be a poor agricultural statistician. He should stick to fiction writing.

Still A Mystery

THE man who has spent more time than any other individual in the study of the smelt still admits he does not know what type of disease caused the mass deaths of the silvery fish in the Great Lakes in the winter of 1942-43.

But Dr. John Van Oosten, fisheries investigator of the Fish and Wildlife Service, is confident that the smelt will eventually come back to the Great Lakes. In fact, he believes that within four or five years there is the possibility they will be caught in the large numbers that made the spring smelt run a gala event not many years ago.

The silvery smelt will be welcomed back with mixed feelings. Commercial fishermen on Washington Island and elsewhere on the lakes hope they never return for they recall how they fouled their nets and caused them much extra work. At Escanaba, Menominee and some other points, the smelt finally won the hearts of both commercial fishermen and townspeople. The jamborees and other celebrations gave this Green Bay region nationwide publicity, the benefits of which carried over into the summer tourist season. Commercial fishermen also profited because an unexpected consumer demand for the fish was developed throughout the Middle West.

Utilization of the smelt also has suggested to commercial fishermen that there may be an opportunity to commercialize other species of less popular fish, such as carp and herring. They have given this matter considerably attention during the past couple years, and some interesting developments are likely to occur in the future.

Other Editorial Comments

INSTITUTE IN ACTION

(Marquette Mining Journal) The Michigan Institute of Local Government had decided to take hand in distribution of literature published for the purpose of winning votes against the proposal to give Wayne home rule in county government. It will, no doubt, soon be coming into the hands of the voters. How far and effectively it will be counteracted by publicity put out by the advocates of home rule remains to be seen.

But there is one thing the outstate voter should always keep definitely in mind. The amendment has no effect outside Wayne. County government outstate will remain what it is today until the voters approve a general constitutional amendment under which it can be changed. Outside of Wayne there is no county with sufficient votes to have any chance of securing a home rule amendment of local application.

What Wayne will be able to do under the home rule amendment, if it is passed, will have to be shown when it acts under it. But it can do nothing that will effect unfavorably the other counties of the state. If Wayne, by introduction of change of plan, gets much better results in the outstate counties, the latter will be put on notice that they will serve their interests by emulating Wayne. To do this they would first have to unite in support of an amendment that would give them some freedom of action.

The opposition to the amendment proposing home rule for Wayne is essentially selfish. It comes principally from men, and women, who want no change in county government because through long practice they have learned how to make county government as now practiced work out to their own advantage. The voters should be suspicious of their essentially selfish counsel. They should vote yes on No. 4.

SMOKING AND RADIO

(Christian Science Monitor) Those twin train problems — smoking and the radio—are at long last going to be settled by at least one railroad—the Milwaukee—which has asked all patrons on its trains just where and when they wish these to be permitted.

Due to the difficulty of curbing it, some railroads have recently allowed smoking in many cars. Others, among which may be cited the Baltimore & Ohio, Pennsylvania, and New Haven, have kept their trainmen alert, even in these busy days, to ask travelers not to smoke in cars where smoking is restricted. Now, the Milwaukee, in a questionnaire, seeks to learn precisely where its guests wish it to be permitted. Likewise, the road wants to know where radios should be heard—whether throughout the train, in one car only, or in private sections in certain cars.

After all, the person who wishes to hear symphonies is agonized by the walls of "live," and, in all candor, the devotees of the latter doubtless are bored by the classics. The railroad in seeking to follow the wishes of a majority of its patrons is practicing true democracy.

The first and best reply to those who want to argue about politics is, "Have you registered?"

The Round Table

BY RAYMOND MOLEY

When a Roosevelt neglects the opportunity to take a trip, there must be an exceedingly important reason. Therefore, the President's absence from the Churchill-Stalin sessions in Moscow is significant. It may be due to Mr. Roosevelt's delicate

Moley

health, but a better reason is revealed by New Deal worries over the equally delicate loyalties of the big Polish vote in vital American cities.

Democratic chieftains in States where the Polish vote is heavy are expressing fear and confusion. A whole series of cities, from Boston to Milwaukee, are in the balance, and the Polish vote may well be decisive in the election.

At the very moment when the President has these worries, Russia turns loose some marked specimens of her "cowboy diplomacy." The war on the Eastern front has become openly, palpably political. Stalin, like Peter the Great, wants a "window on the Baltic." So the armies take over the Baltic states. This makes it unnecessary to take all of Finland, and so Finland gets a fairly easy peace.

—RUSSIA ALREADY WINNER— Also, like Peter the Great, Stalin wants control of the entrance to the Black Sea. To get that control, it is not necessary to touch Turkey, but Russian power is within 15 minutes' flying time from the Dardanelles.

Russia wants to take the Slavic peoples in the Balkans under her wing, and, hence, the drives to Belgrade and Budapest. She wants no part of Germany, and so the armies stop at the boundaries of East Prussia.

Finally, Stalin wants Eastern Poland, but no more, and hence the hesitation east of Warsaw. Russia, for all immediate purposes, has won her war, and now enjoys the pause that refreshes.

—POLISH VOTE WAVERS—

The concern of Poles over this situation is intensified by the occasional shots that Moscow takes at the Vatican. The impact on the Poles in this country is immediate. The Polish vote is wavering, and any move by the President toward participation in further Moscow parleys, at this time, might precipitate a stampede to Dewey.

A defection of that sort would be dangerous, if not fatal, to the Fourth Term. There is defection already in other minorities. The A. F. of L., the northern Negroes, the Italian and the Irish vote for the New Deal will clearly be reduced. The whole structure of New Deal control in the cities necessary to the election may be destroyed if a large minority, like the Poles, is also shaken. It is not a single threat that is making this election look close. It is the combination of many small defections in spots which are essential to Mr. Roosevelt's winning the election.

Folks who cash in their War Bonds now will be extra cash out in the years to come. Hang on to those you have—and buy more!

Take My Word For it . . . Frank Colby

SUNDAY MISCELLANY

Fort Wayne: Is it correct to speak of our smallest coin as a "penny"?—O. D.

Answer: Strictly speaking, no. The penny is an English coin, a survival of the Anglo-Saxon penny. The correct name of the U. S. coin is cent, a French word meaning "one hundred."

Industry: Is "infant tango" the right name of the skin eruptions children have?—A. H.

Answer: Sorry, no. The correct name is impetigo, pronounced: IM-pee-TY-go. It is from the Latin impes, "attack, onset." Quonset: The broadcaster accents realization on the second syllable, pronouncing it like the name "Al." Right?—J. H. T.

Answer: Wrong. The correct American pronunciation is: REE-uh-b-ZAY-shun.

San Diego: Should we tread the "straight and narrow path," or is the word "strait"?—Mrs. C. M.

Answer: The expression is a corruption of, "Strait is the gate, and narrow is the way, which leadeth unto life and few there be that find it."—Matt. vii. 14.

Ogden: We have an argument. I hold that it is incorrect to say, "He has gone bankrupt." Do I have to back down?—F. E.

Answer: Not an inch. There is no such adjective as "bankrupt." Correctly: He is bankrupt.

P. N. B., of Hollywood, sends this item of loony logic, with the comment: "No mother to guide him!"—Marshal Rokossovsky, son of a Warsaw cobbler and a Stalingrad hero.

PELOPONNESOS, (not "sus"), southwestern peninsula of Greece, also known as Morea (moe-REE-uh). The accents fall on the first and fourth syllables, thus: PELL-oh-puh-NEE-suss.

BOLOGNA, city of northeastern Italy. Caution. Not "buh-LOE-nuh," nor should the name be confused with the French channel city of Boulogne. Many broadcasters pronounce both names alike, which is in error.

The French Boulogne is: boo-LAWN-yuh.

The Italian Bologna is: boe-LOE-nah. LIEPAJA, port of southwestern Latvia. This is the Lettish form of the name, and is pronounced: LEE-a-pa-ya, the "a's" flat as in "pad, mad." The port is often referred to by the German name Libau, the second syllable having the vowel sound of "ou" as in "bout, loud," thus: LEE-bou.

STAILIAI, rail junction of north Lithuania. Easier than it looks. Say: sh-OW-lee-eye.

The Pot of Gold at the Rainbow's End

Good Morning!

By The Bugler

ACCIDENT TOLL.—Delta county's highway accident toll is lower than it was a year ago at this time, but it is still too high considering the wartime reduction in traffic. That Escanaba and Gladstone have each had but one traffic fatality each this year can be credited to luck rather than any great amount of precaution on the part of pedestrian or motorist.

For by and large we are, all of us, among the most careless group of people in the world. Last year in the nation 23,400 persons died in the motor vehicle accidents; 7,150 died by drowning; 10,350 died of burns; and 27,400 were killed in falls.

There were other accidents that took their toll also, but the above were the four major causes of accident fatalities.

WE ARE CARELESS.—While all of us express horror and concern over our mounting war casualty lists, we are prone to overlook the accident toll that has exceeded our total war casualties.

World War II through the year 1943 cost America 140,000 killed and wounded. For the same period the casualties on the home front—in factories, in homes and on highways—totalled 199,000 dead and 18,500,000 injured.

DOING BETTER.—Looking at the highway traffic toll so far this year, and comparing it with 1943, shows there are fewer traffic casualties. As has been pointed out above, this is perhaps more a matter of luck than conscious effort to avoid accidents.

In 1943 there were five persons killed in traffic accidents in the city of Escanaba, and six in the county, or a total of 11 for the year.

So far in 1944 the highway traffic toll for Escanaba is one, for Gladstone one, and three for the county, making a total of five.

There is no reason to think we will get through the rest of the year without at least one, two or more traffic fatalities in Delta county. This will bring the total to an estimated seven or eight. If other classes of accidental deaths in the county also were tallied, it would amaze most folks. But such figures are difficult to obtain except by a study of death certificates filed by the physician.

HOW IT HAPPENS.—It is easy to write that highway accidents are caused by carelessness but it is of more value to know how these fatal accidents occurred, so that we as individuals may be more careful ourselves under similar circumstances.

So far this year four of the five traffic fatalities have been pedestrians. From this it is possible to deduce that, at least in these wartime years, the person walking on the highway is in greater danger than the man behind the wheel of the car.

CASE HISTORIES.—On January 3 a man was fatally injured when he got out of his car on the highway in the city limits to flag down oncoming cars at the scene of a minor car collision.

Early the morning of March 12 a Rapid River man was struck and fatally injured by a car while walking on the main highway. He died six hours later.

On April 3 a man walking on a county road near Osoz was struck and killed by a truck. The truck driver said the man stepped directly in front of his vehicle—even though the horn had been sounded.

An Escanaba man was injured May 28 in a car collision in the county, but lingered for weeks in the hospital before he died.

At Gladstone an aged resident

INTO THE PAST

10 Years Ago—1934

Starting with tonight a series of three township rallies have been booked by Delta county Democrats. The meeting this evening will be at the Cornell town hall, Thursday night at the Flat Rock town hall and Friday evening at the Schaffer school.

A vivid picture of Old Mexico was presented members of the Business and Professional Women's club at their dinner meeting Monday evening at the Hotel Ludington, by Attorney Denis McGinn, who spent a part of last winter touring that country.

Dr. Roger Chenoweth talked on "Prevention of Disease" at a regular meeting of St. Ann Parent-Teacher association yesterday afternoon at St. Ann hall. Entertainment included a playlet, readings, instrumental and vocal music.

20 Years Ago—1924

William J. Miller of Rapid River, in urging the county board to continue the county bounty system another year, declared that 78 wolves were turned in last year for a bounty of \$10 each. The board appropriated \$1,000 to continue the system for the next 12 months.

A profit of \$443.39 realized on the exhibition baseball game between the Cleveland and St. Louis American league clubs here last week, will be turned over to the high school athletic stadium fund. It was announced yesterday at the Chamber of Commerce office.

Manistiquette—An old hosecart, relic of one of Manistiquette's earliest fire departments, was presented to the county historical society in a motion passed at the regular meeting of the city council Monday evening.

25 Years Ago—1919

Bark River township in a formal statement yesterday to the board of supervisors "protested and objected" against any action on the part of the board towards the assessing or spreading on the tax roll, any amount of money growing out of work done by the state on the roads of that township.

That the school facilities of Escanaba are nearly inadequate to present needs and that they will be wholly so when the James compulsory educational law becomes effective in 1920 was the outstanding feature developed at a board of education meeting last night. The city will have to have more schools and more teachers.

of that city stepped from the sidewalk directly into the path of a bus. He was dashed to the pavement and his skull crushed.

WATCH YOUR STEP.—Back not so many years ago the weight of public opinion was against the driver of a car. That was when only a few (usually rich) people owned an automobile.

Now almost everyone owns or drives a car and in the eyes of the public, the driver is not considered altogether negligent every time a pedestrian chooses to cross the street without looking about in the interest of his own safety.

The weight of responsibility, therefore, rests equally on the driver of the car and on the pedestrian. One or both, may be negligent.

The pedestrian should watch his step just as much as the motorist should watch the road.

INVITING DEATH.—Our whole highway safety program, at least in this locality, must have an over-hauling if it is to set the new condition imposed by the pedestrian problem.

The pedestrian must be made to realize that when he walks carelessly on the highway or in crossing a street he is inviting death or injury for himself. It is difficult to test a pedestrian's perceptions, as you would the brakes of a car. But a burden responsibility can be placed on the pedestrian to discourage jay-walking and other careless walking habits.

—Clint Dunathan.

The Lyons Den

By Leonard Lyons

NEW YORK — Asst. Secy. of State Adolf Berle, the No. 1 anti-Nazi in the State Dept. — from whose writings Gov. Dewey took one line and cited it as evidence that the Administration plans government ownership of the means of production — now telephones friends and begins: "This is the famous Communist." . . . Al Smith's last photographs were made for the Army and Navy Screen Magazine, in its edition which described the East side of New York which produced the beloved Smith . . . The Xmas edition of the magazine, incidentally, will feature Leopold Stokowski conducting an all-Army and Navy orchestra with the Westminster Choir, and with Marian Anderson as soloist.

AFTER Wendell Willkie returned from his tour around the world he made a full, frank report to the President about his trip. Willkie was direct and honest, which was typical of him . . . The President listened closely to his opponent of 1940 who had become one of the greatest and most uncompromising liberals of our time . . . "Wendell," said the President, "I envy you, your youth, your vitality, and your opportunity."

Russell Davenport, who was Wendell Willkie's No. 1 aide in the 1940 campaign and who knew better than any other man could know, what Willkie's position would be in this campaign, will be a principal speaker at the Liberal Party's Madison Square meeting . . . Father Boland, former head of the State Labor Board, has gone to England . . . Wire from Eric Johnston: "It has been a long standing policy of the Chamber of Commerce of the U. S. not to engage as an organization in political campaigns. That is a wise policy. As president of the Chamber, I am adhering to it faithfully. As a citizen, however, I am supporting Dewey."

THE BRIEFEST exchange of overseas correspondence since the beginning of the war was completed this week between Sgt. Marion Hargrove and Gen. Joe Stilwell, under whom Hargrove served when he went to the China, Burma, India theatre. The letters between them were both one-liners. Six weeks ago, when Stilwell's promotion was announced, Hargrove wrote him: "May I add my congratulations to the others." Gen. Stilwell replied: "See here, Hargrove. That was nice of you, and I appreciate it."

LUPE VELEZ, in El Morocco last night, confided that not only was her trip to New York in vain — she had come here to appear in Dave Wolper's new musical and then decided against it—but she also got herself involved in a \$100,000 law suit brought by her agent . . . There isn't a word of truth to the report that Best & Co. will occupy the department store being erected on the site of the Union Club. The identity of the new tenant still is a mystery . . . An overzealous worker for Henry Kaiser's Non-Partisan Committee to get out the vote tried to induce Tommy Dorsey to apply for an Absentee Ballot, just in case he's convicted.

A NUMBER of Broadway playwrights, authors and actors last week donated some of their prized mementoes to an auction sale whose proceeds went to Roosevelt's campaign fund. Among the items contributed was the original manuscript of Edward G. Robinson's play, "Decision." When the bidding reached \$75, the author announced: "\$25 more, and you'll reach the play's gross." . . . Clifton Webb's performance in his first movie, "Laura," is truly remarkable. It will keep him rich in Hollywood . . . Damon Runyon's recovery is so complete that he's gone on a jewelry and shoe buying spree.

Ninety-four out of every 100 women in India are mothers

The Washington Merry-Go-Round

BY DREW PEARSON

(Lt. Col. Robert S. Allen now on active service with the Army)

Washington—You can write it down as certain that some all-important diplomatic appointments will be announced next month, possibly earlier. Here is the lineup:

1. Brigadier General Fiorella La Guardia will go to Italy on Nov. 15 to become top U. S. adviser to the Italian civilian government.

2. Leon Henderson, former OPA Administrator, will go to France to be economic adviser on the staff of General Eisenhower, later will take over the economic rule of U. S.-occupied Germany after the armistice.

3. Randolph Paul, former General Counsel of the Treasury, is being asked to become U. S. Minister to Italy, representing both the State Department and the Foreign Economic Administration on all economic matters. This appointment is not definite yet, depending on whether Paul, who bore the brunt of the tax fight, is willing to return to public life.

4. Philip Reed, chairman of the board of General Electric, will resign as U. S. Minister to London in charge of all economic affairs. His successor has not been chosen.

Despite all the mystery about Mayor La Guardia's future in Italy, his brigadier generalship actually is all set and is only waiting the proper time for public announcement. It will be La Guardia's job to put the Italian government on its feet. The idea was heartily approved by Churchill, who thought the fiery mayor of New York was just the man to inject the proper backbone into the limping Bonomi government. The Bonomi regime faces a terrific job in bringing back stable Italian democracy after two decades of dictatorship and four years of bloodshed.

La Guardia left Congress during the World War I to become a major in the Air Corps, where he served on the Italian Piave front. He has been itching to get back into uniform in this war, but War Department brasshats have shuddered at the idea of coping with the mayor's dynamic, irrepressible temperament. Churchill and Roosevelt have now overruled the brasshats.

The appointment of Leon Henderson as economic boss of occupied Germany is also definitely set. Only point to be decided is his exact title and power, which will depend somewhat on the ideas of our Allies.

—WAR'S END!—

One inside reason for General Marshall's sudden visit to the western front was to decide the probabilities of ending the war this year. That was also one reason why "Assistant President" Jimmy Byrnes accompanied him. Byrnes wanted to get a clearer picture of how big a supply job would have to be accomplished if the war continued into 1945.

Before General Marshall left Washington, he confided to high-up Administration chiefs that there was still a chance to end the German war this year.

It is no secret that General Eisenhower has been bringing up tremendous supplies and reinforcements to make one more gigantic push before winter sets in. This push will tell the story of whether the war can end this year.

—POLITICS BY PLATTER—

Last Monday night, Assistant Secretary of the Interior Oscar L. Chapman got a phone call from Salt Lake City. Heinrich Guss, high-up Utah Democrat, was on the phone.

"We've just been listening to Secretary Ickes speak in Los Angeles," Guss told Chapman, "and he did a great job. He had the crowd roaring with his references to that Trojan horse. It was terrific. But," continued Guss, "you promised that Ickes would be in Salt Lake at 9:30 tomorrow, and he can't possibly make it. It's nearly midnight now, and there's no possible way he could get here. Is he going to take a special plane?"

"No, the Secretary doesn't use special planes," replied Assistant Secretary Chapman, puzzled. "You say you have been listening to his speech tonight?"

"Yes. He just finished," came the reply. "We have a band ready to meet him at the station tomorrow morning and, obviously, he won't be here. What are we going to do?"

"What night is it out there in Utah?" asked Chapman.

"Monday night."

"All right," reassured the Assistant Secretary of the Interior, "Secretary Ickes spoke in Los Angeles Sunday night, and you're listening to a rebroadcast of his speech Monday night. He'll be in Salt Lake on time tomorrow."

The importance of election doesn't register with some people—because neither did they.

If you think the days are growing shorter for us, think of the Germans and Japs.

In a Kentucky town a pickpocket robbed a girl in the sheriff's office. Two deputies present escaped without loss.

Our distance from our enemy in the Pacific is now just a hop, skip and jump all over the Japs.

A divorce wave is on the rise around the country. When it subsides, someone should put out a "Who's Whose."

The mother of six boys was struck by lightning in Indiana. Needless to say, she will recover.

This is the season when dad is perfectly willing to let someone else try the sleeping porch.

RED CROSS TO MEET MONDAY

Invite Public To Attend Annual Conference At City Hall

The annual meeting of Delta County Chapter, American Red Cross, which was adjourned from the second Wednesday of October, will be held in the council chamber of the city hall Monday night October 23, at 7:30 o'clock.

At the meeting it will be proposed that the by-laws of Delta county chapter be revised and brought up to date. The original by-laws were written in 1917. Many changes have been made in the work of the chapter since that time, and it is felt that the by-laws should be rewritten to cover them.

The election of directors will also take place. Those whose terms expire are: O. V. Thatcher, Mrs. Arthur Barron, H. P. Lindsay, Mrs. Stanley Venn, Mrs. D. N. Kee, Mrs. A. Johnson, Rudie R. Jehn, Mrs. Fred Kickbush, H. D. Brackett and J. J. Jacobs.

The hold-over directors, whose terms expire in 1945 and 1946, are: 1945 Mrs. R. W. Haddock, F. J. Earle, W. J. Smith, J. M. Olson, Wallace Cameron, Frank Tebo, O. J. Thorsen, Mrs. J. H. Niver, A. M. Gilbert and Claude Hawkins; (1946) John A. Lemmer, Mrs. E. J. MacMartin, Mrs. Nancy Petry, Gerald J. Cleary, William Warmington, Jas. T. Jones, Mrs. M. J. Neveaux, John P. Norton, Geo. Weingartner and George Brown.

L. J. Jacobs, chairman of the chapter, believes that in the past the general membership has not taken the interest it should in the work of the organization and that this meeting of the members should be of assistance in carrying on the work of the chapter. He is endeavoring to have Leah Goesser, field representative for the State of Michigan Home Service program, present to conduct a question-and-answer session for those who wish to bring up any matters for discussion.

Chairmen of the various committees of the chapter are being requested to bring their annual reports to the meeting so they may be read publicly.

It is planned that the budget which is now being prepared will be ready and presented for consideration.

A meeting of the board of directors will probably be held the same night for the purpose of electing officers and an executive committee for the year.

The present officers of the chapter are:

L. J. Jacobs, Escanaba, chairman; Mrs. M. J. Neveaux, Gladstone, vice chairman; William Warmington, Escanaba, treasurer; F. J. Earle, Escanaba, secretary; members of the executive committee are: Jas. T. Jones, John A. Lemmer, O. V. Thatcher, William Warmington, F. J. Earle and L. J. Jacobs.

"Double the Vote For Dewey" Day Widely Supported

Lansing, Oct. 14 — Mrs. Fern Smith Hammond, Vice-Chairman of the Republican State Central Committee of Michigan, said today that the "Double-The-Vote-For-Dewey day" nation-wide rally, scheduled for October 25th by the Republican National Committee, is receiving state-wide support in Michigan.

"Miss Marion E. Martin, Assistant Chairman of the Republican National Committee, is organizing this mammoth rally throughout the nation, and Michigan will be right on the firing line in the drive to urge upon the people the importance of voting next November 7th," Mrs. Hammond said.

Pointing out that the Republican Women's Federation of Michigan is holding a state-wide meeting of all affiliated clubs of the state on that day in Grand Rapids, Mrs. Hammond said that Congressman Charles A. Halleck of Indiana would address a gathering of these clubs at the Rowe Hotel in Grand Rapids at noon. The public is invited to attend.

Another feature of the day will be the address of Governor Dewey, who is scheduled to speak over the Columbia Broadcasting System from the Chicago Stadium at 9:00 p. m. CWT (10:00 EWT).

"Neighborhood meetings are scheduled throughout the nation for October 25th," Mrs. Hammond stated, "and altogether the day promises to be one of unusual activity. I urge everyone interested in a Republican victory on November 7th to give 'Double-The-Vote-For-Dewey day' their full support in Michigan."

Melstrand

Severely Injured
Melstrand—Albert Rowley, 60, was severely injured when his hand caught in the gears of a loader at Williams siding and wound the arm, breaking bones and mangle it until amputation was considered necessary. He was taken to a Marquette hospital for treatment.

Broken Toe
Melvin Kroening dropped a tie stick on his foot and broke a toe. He had it set in a local physicians office at Munising.

About one-third of the fires put out by municipal fire departments in the United States are put out with hand extinguishers.

State Okays \$12,101 For County Road Job Plans

The Michigan planning commission has approved applications of the Delta county road commission for state funds to aid in the preparation of plans for 21 proposed postwar improvement projects on the county highway system. It was announced yesterday by J. A. Sharpsteen, county road superintendent.

Under the program to encourage postwar project planning, the Delta county road commission was allotted a maximum of \$12,101. All of this amount, matched by an equal amount from the county, will provide for making plans and specifications for 10 county bridges, and 11 road projects whose estimated construction cost is \$672,475.

The state planning funds come from a five million legislative appropriation, of which one million was allocated among county road commissions for postwar road projects planning.

The 21 projects which have been approved by the Michigan planning commission are part of the county and state highway plans for a three-year postwar program totalling \$2,100,000. It was made clear by Sharpsteen, however, that any new construction in the postwar period must be financed from new funds. Present revenue is sufficient only to meet maintenance cost. It is anticipated that state and federal funds may be made available.

Delta county's highway system has 69 bridges of inadequate width, Sharpsteen said. Most of them also are posted for load weight limits. For this reason proposed improvements include the construction of 10 new bridges as follows:

Plan 10 Bridges

1—Masonville township: Crossing west branch of the Whitefish on the North Delta road. Estimated cost \$19,500.

2—Nahma township: Crossing the Sturgeon River near the village of Nahma. Estimated cost \$45,000.

3—Escanaba township: Crossing Ford River at River View. Estimated cost \$30,000.

4—Ford River and Wells townships: Crossing Ford River 1½ miles north of Hyde. Estimated cost \$30,000.

5—Baldwin township: Crossing Rapid River at Friday. Estimated cost \$19,500.

6—Bark River township: Crossing Ten Mile Creek east of Schafter. Estimated cost \$13,500.

7—Ford River township: Crossing Bark River on County Road 535. Estimated cost \$10,500.

8—Ford River township: Crossing Bark River on the same route, only a half mile distant from the project list above. Estimated cost \$10,500.

9—Maple Ridge township: Crossing Days River on the St. Nicholas road. Estimated cost \$10,500.

10—Maple Ridge and Baldwin townships: Crossing Squaw Creek near the Belgian settlement on the St. Nicholas road. Estimated cost \$10,500.

11 Road Projects

Following are the 11 road improvement projects approved by the state:

1—Maple Ridge township: Two miles grading and drainage structures, and gravel surfacing, on Co. Rd. H-29. Estimated cost \$15,000.

2—Baldwin township: Three and three-quarter miles of new construction, grading and drainage and gravel surfacing, Cornell to Brampton. Estimated cost \$78,150.

3—Baldwin and Masonville townships: Five miles of base repair and black top surfacing on Co. Rd. 428, Perkins to US-41. Estimated cost \$20,500.

4—Maple Ridge and Baldwin townships: Six and one-half miles of base repair and blacktop surfacing on the St. Nicholas road. Estimated cost \$26,650.

5—Cornell township: Nine miles of base repair and blacktop surfacing Co. Rd. 426 Cornell to Marquette county line. Estimated cost \$33,750.

6—Escanaba and Cornell townships: Seven miles of grade widening, base repair and blacktop, Flat Rock to Cornell. Estimated cost \$51,100.

7—Ford River and Bark River townships: Ten and 3 tenths miles grade widening, base repair and blacktop, Co. Rd. 535. Estimated cost \$73,000.

8—Ensign and Bay de Noc townships: Six miles of new grade and gravel surfacing on the Ogontz road from US-2 south. Estimated cost \$41,625.

9—Bay de Noc and Ensign townships: 13 miles of widening, base repair and blacktop on Co. Rd. 551. Estimated cost \$100,100.

10—Ensign and Bay de Noc townships: Eight miles of widening, base repair and blacktop on the Stonington road. Estimated cost \$55,600.

11—Garden and Fairbanks townships: 10 miles of widening, base repair and blacktop on Co. Rd. 483. Estimated cost \$37,500.

POSTMASTER DIES

Sault Ste. Marie—William L. Campbell, prominent citizen of Hulbert, died at 6:20 p. m., Thursday, October 12, 1944 at his home in Hulbert, Michigan. Mr. Campbell had been ill for some time. Death followed a heart attack.

He was born April 18, 1879 in Comber, Ontario and served for 20 years as a lighthouse keeper on the Great Lakes. Mr. Campbell started the first General Store in Hulbert, has been a member of the board of education for the past eighteen years and was Hulbert postmaster at the time of his death. He was instrumental in starting Hulbert township and served as its first supervisor.

ELECT CLASS OFFICERS
The different classes at Mather High school held their class election recently and it is interesting to note that the boys walked off with the class leadership in every grade. The following were elected to head their respective classes:

Seniors — President, William Cheverette; Vice President, Martin Hendrickson; Secretary, Evelyn Huse; Treasurer, John Matson.

Juniors—President, Don Potter; Vice President, Dick Beattie; Secretary, Pat Everett; Treasurer, Lee Dobbs.

Sophomore — President, Bill Knowles; Vice President, Dick Reed; Secretary, Naomi Ball; Treasurer, Ragnar Seglund.

Freshmen—President, Ted Engel; Vice President, Leslie Kouri; Secretary, Carol Floria; Treasurer, Evelyn Gamble.

BRIEFS

Clayton Frel, Arthur Calahan, Percy Temple, R. C. Young, E. G. Day, A. Syverson, H. A. St. John and Wm. Shultz of Marquette were guests at the Rotarian banquet held Oct. 12 at the Beach Inn.

Henry Ralea U. S. Navy Reserve has arrived home on leave to visit his wife and parents after spending quite some time on active overseas duty.

Mr. and Mrs. Harry Nelson and son Charles spent Wednesday afternoon in Marquette.

Jack Rousseau is spending the weekend in Milwaukee visiting friends.

Theodore Scholtes S/2e returned to Great Lakes Thursday evening after spending his boot leave with relatives and friends.

Bert King and H. Jackson of Escanaba were in town this week on business.

S/1c and Mrs. William Rousseau and children of Sault Ste. Marie, Mich. are spending a week here visiting here visiting relatives.

Mrs. Leon Keller of Fenton, Mich. is visiting at the home of Mr. and Mrs. Charles Keller, Pvt. Keller is overseas with the U. S.

DIES AT BARAGA—Dr. S. R. Buckland, 78, widely known throughout the Upper Peninsula as a home specialist, died at his home in Baraga Friday. Some years ago, he was a member of the board of managers of the Upper Peninsula State Fair from Baraga county.

Pfc. Motto Slightly Wounded In France

Pfc. Robert J. Motto, 19, son of Mr. and Mrs. Joseph Motto of Wilson, was slightly wounded in September 28 in action in France, according to a telegram received Wednesday by the parents from J. A. Ulio, adjutant general.

Entering the army Sept. 3, 1943, Pfc. Motto left the United States for overseas service on May 3 of this year. He is serving with the infantry.

The density of population in the Nile valley in Egypt is greater than in any country in Europe.

Bark River Soldier Hasn't Lost His Aim

On the Aachen Front—Sgt. Francis Courville, Bark River, Mich., who used to hunt bears in the Michigan forests near Escanaba hasn't lost his sharpshooters touch.

Courville saw some Germans trying to run a gauntlet of American fire by crossing the Aachen railroad tracks. He borrowed a Garand rifle from a pal, whipped it to his shoulder and dropped two of the group from a distance of 600 yards or more.

Sgt. Courville is the son of Mr. and Mrs. J. C. Courville, Escanaba Route One. He has been in the service four years and has been overseas for two years.

Army in the European area.

Mr. and Mrs. Fred Raymond are leaving today for Lower Michigan while there Mr. Raymond will attend the Fall meeting of the Odd Fellows Grand Lodge of Michigan.

There will be a regular meeting of the I. O. O. F. Lodge Tuesday night at 8:00. Members will practice on the initiatory degree and this being an important meeting all members are urged to be present.

Ward Week

IS HERE AGAIN!

For years, Ward Week has been a tradition. Millions of American families have awaited its coming each Spring and Fall. Months ahead Montgomery Ward store managers in every part of the country planned together, bought together to make Ward Week a time of exceptional values. Then came the war... with its urgent call for materials and production. An event like Ward Week, with its huge assortments of civilian goods, seemed out of step with the nation's march towards victory. So, Ward Week was shelved... until now.

Today merchandise is still far from plentiful and we urge you to buy only what you need. But once again we can invite you to shop and save in Ward week. In every department of our store, you will find timely values. See them all but, please, buy only the things you need and let your neighbors have their share.

WARD WEEK STARTS WEDNESDAY, OCTOBER 18TH AT

MAYNARD TALKS TO LIONS CLUB

Joint Meeting Planned With Business Women

In observance of National Business Women's week, the Escanaba Lions club on Monday will meet jointly with the Escanaba Business and Professional Women's club.

P. W. Maynard, district price economist of the OPA, will give the principal talk of the program on the subject "Are We Part Time Citizens?" Vocal selections will be offered by Frank Hira.

The dinner meeting will begin at the usual time, 6:45, and will be held at the Sherman hotel. Mrs. Lillian Reynolds is in charge of arrangements for the women.

This is the 17th annual observance of National Business Women's week. The first such week was in 1928 when there were 574 clubs with 50,000 members and the observance was launched for the purpose of dramatizing the contribution of business and professional women to the social, economic and political life of the nation.

Gradually the purpose has strengthened as women's contribution to American life has strengthened. Now the federation has approximately 1700 clubs and 80,000 members. There are federations in all of the 48 states, and in the District of Columbia, Alaska and Hawaii.

C. G. Reserve To Muster On Monday

The Escanaba unit of the U. S. Coast Guard Temporary Reserve will hold its October general muster at the Fair Grounds Armory Monday, October 16, at 7:30.

All enlisted Reservists and recruits are requested to be on deck. The training program for the winter will be announced at that time.

The largest coal mine in the world is located in Illinois.

Serge Jaroff's Cossack Chorus To Sing Oct. 25

The Original Don Cossack Chorus under the direction of Serge Jaroff now on their fourteenth American tour will gallop into Escanaba on Oct. 25 to present another of their prized programs of songs and dances of Russia at Town Hall. This world-traveling ensemble whose voices, according to the New York World-Telegram critic, "can turn Madison Square Garden into a telephone booth," began their current season with three consecutive concerts at the Metropolitan Opera House in early October, under the pennant of S. Hurok.

Organized twenty-three years ago by "Hop-O'-My-Thumb" Jaroff, these singing giants of the Steppes have performed almost five thousand times all over the globe. Today they are settled in the U. S. A.

During this past summer they quit their usual quarters on the Jersey coast for eleven sensational straight weeks as the featured attraction on the Radio City Music Hall stage. Between shows, they continued the daily classes in the study of the Constitution of the United States begun the previous summer. One by one, the choristers have been issued their naturalization papers.

In studying the Constitution, the Cossacks first translated it into Russian in order to get the sense of it. They then memorized it. In that fashion they studied the English language at the same time. The sessions lasted one hour each. Soon all the Don stalwarts will be U. S. citizens. Incidentally, they will be numbered among the few who know the Constitution from memory.

Included in their current repertoire are the latest importations from Russia. Some of these songs come hot off the battlefield where the Red Army turned the tide of the war against the Nazis. Featured in the season's catalog is "The Hymn of the United Nations" by the famous composer, Dimitri Shostakovich.

The Original Don Cossacks will appear here under the local auspices of Town Hall.

An imposing sight on the coast of Normandy, France, is Mount St. Michel, an immense monastery erected in the Middle Ages on an isolated rock rising out of the sea off the coast.

DIRECTOR JAROFF

Vitamins For Vegetables

Agricultural scientists are discovering ways of growing vegetables, fruits and cereal foods with higher vitamin values and other nourishing qualities, by cross-breeding plants and increasing certain minerals in the soil.

Olafson's Brother Is Army Graduate

BY ANDY P. OLAFSON

Well I was going to write you the News from up here last wk. but there was none of it turned up at the time but my brother did which was in the Army and now he is out on acct. his Bunnions giving him affection in his feet which is all right for Farm but not so good for the Army traveling system it seems but any how he says there was not much future outlook ahead for him to get Promoted in Army on acct. he says there was officers thick there where he was running around all over themselves so he could not see any opening there and he was going to be a truck Driver, but they found out he was only Educated in the Model T shift driving also Driving Horse team but they did not have no horses so they sent him home he says he could have made it to a First Class Priwit all right but the hot Weather down there

Olafson

gave him Hay Feeder and when he try to shoot the Target the Water came in his Eyes & he could not see it but he is all right when it comes to Shooting a deer which he tried out as soon as he came home just to prove the Army was wrong about him not able to see good and for all the work he done for the army he says they not even let him take home the Gun they gave him and first few nights when he was home in the morning he started to Make his Bed as soon as he gets up but he got over that quick and now he is working Defents work job on acct. he was not much use around home and the first Pay day he calls up by Telephone and says he will be late he is still at the mill working

Over Time and his wife haags up the telephone and she says that must be a nice place to work she could hear a loud mussic box playing

Well there is no news right now about the Bridge across the bay to Stonington on acct. of wet weather which we could not get in the woods to haul out the Timbers and the road is so crooked and the Timbers so long they will not go around the corners of the road so we have to Straut out the road first and then we will go so fast you will be Dizzey

Hoping you are the same

SAFE WALKING DRIVE STARTED

**Pedestrians Must Learn
Road Safety Rules,
Say Officials**

Concerned over the large number of pedestrians being killed and injured in traffic accidents, state and local police will launch a state-wide pedestrian safety campaign starting today. Police Chief Michael Ettenhofer announced yesterday.

More than 100 civic and community organizations will participate in the campaign which is to be conducted jointly by the Michigan State Safety commission and the Traffic Safety Association of Detroit.

In urging pedestrians to avoid having an accident by following all rules of safe walking, the police chief pointed out that a total of 267 pedestrians were killed in auto mishaps in Michigan during the first six months of this year.

Four of five persons killed in Delta county this year in highway accidents were pedestrians.

Accident records show that two-thirds of the pedestrians killed in rural traffic accidents and six out of 10 killed in urban accidents were either violating the law or committing an unsafe act.

Because three out of four fatal pedestrian accidents occurred during hours of darkness, special emphasis will be placed on the hazards of nighttime walking and driving, he said.

All police have been instructed to apprehend motorists attempting to drive with only one headlight or with a dim or misdirected headlight.

In support of police enforcement efforts during the campaign, educational posters and leaflets prepared by the Michigan State Safety commission and the Traffic Safety association will be distributed warning pedestrians to stop and look both ways before stepping off the curb and to take extra safety precautions when walking at night, while urging motorists to be doubly alert when driving at night.

Engadine

Mrs. Emery Dies Of Heart Attack

Mrs. Jennie Emery, 70, died suddenly Friday night at 8:30 o'clock, of a heart attack, which she suffered while attending evening services with her sister, Mrs. Rose Shampline. Her death occurred at the Cotou home where she stopped to rest on her way home, after becoming ill. Arrangements for the services are incomplete.

Early Escanaba Days

Vital Statistics for Winter of 1884 Listed

—BY JOHN P. NORTON—

Following are the births, deaths and marriages recorded in the Iron Port during the early winter months of 1884:

Mrs. Douglas Ansell of Sae Bay, died Jan. 11, 1884, after a long illness.

Married in this city Jan. 16, 1884, by Rev. H. W. Thompson, pastor of the M. E. church, S. S. Goodell and Esrella E. Stolk, both of Escanaba.

Mrs. Peter Brandenburg, died Dec. 10, 1884, following an operation for removal of an ovarian tumor and was buried in Lakeview cemetery.

Born in this city, Jan. 23, 1884 to Mr. and Mrs. William Slaughter a daughter.

Born on Jan. 21 to Mr. and Mrs. H. C. Williams, a daughter and Henry's too proud to live, almost. He'll get over it in 20 years or so when some youngster comes along and takes his little girl away from him.

Martin Larson, a well known Scandinavian here, died of consumption on Jan. 29, 1884.

Born in the township of Bay de Noquette, Jan. 29, 1884, to Mr. and Mrs. Eugene Gay, a son, the first grand-child of Charlie Boga and his wife.

Married at Fond du Lac, Jan. 23, 1884 at the residence of the parents of the bride, George L. Greene, of Winona, Minn., and Carrie A. Fay, of Fond du Lac. There were present at the wedding divers Escanabans: Mr. and Mrs. Theodore Farrell, Chas. Marston, and "the Greene boys", brothers of the groom, which is our justification for taking notice of this affair. The bride received many beautiful and valuable gifts and many earnest prayers went up that the new family might be prosperous and happy.

Died in this city, Jan. 28, 1884, Mary Ann Rogers, wife of Asa Dodge.

Died in this city, Feb. 2, 1884, Elmer E., son of Mr. and Mrs. Francis, age one year. The parents of the little one wish to return thanks to the friends who tendered their assistance and sympathy during his illness and at the time of his death, and especially to Mrs. Richardson and daughters.

Born in this city Feb. 13, 1884, to Mr. and Mrs. D. A. Oliver, a daughter.

Married at Flat Rock, Feb. 10, 1884 by Aaron Miller, Esq., J. P. Richard H. Hall and Catherine Harris, both of Escanaba.

Born in this city, Feb. 13, 1884 to Mr. and Mrs. John K. Stack, a son, John K. Stack Jr., to whom be lengthy days and prosperity.

Married at Garden Feb. 20, 1884 by E. E. Townsell, Esq., J. P. John Swanson and Amelle Engstrom.

Born in this city Feb. 22, 1884, to William Milner and Dora, his wife, a son, who should be named for the father of his country and armed with a hatchet at once.

Married at St. Joseph's church by the pastor, Rev. E. Buttermann, Feb. 25, 1884, Charles Duraneau and Adrien Barron. A two day wedding was celebrated—the first day at Peter Duraneau's Fayette house and the second at the residence at Flat Rock of John Barron Sr., the father of the bride. Many valuable presents were received and the new family starts out in life with the good wishes of hosts of friends.

Died in this city Feb. 26, 1884.

Business Activity Down In September

The September summary of bank debits just released by the Federal Reserve Bank of Minneapolis shows that in Escanaba the total amount of checks drawn by the public against their bank accounts in September was 6 per cent below the same month of 1943. Comparison of the first nine months of this year with the same 1943 period indicates an increase of 1 per cent.

These bank debit figures represent the dollar volume of checks drawn by depositors against their bank accounts to pay for goods, services, debts, etc. For a locality, bank debits are considered a good indicator of the volume of business transacted for they reflect the amount spent by farmers, businesses and government in payrolls and for materials as well as the amount spent by consumers.

to Mr. and Mrs. Charles Fish, a son.

Born in this city March 8, 1884 to Mr. and Mrs. John Lutz, a son, Capt. John is accordingly, about ten years younger.

in the general retail trade channels.

In the Upper Peninsula of Michigan, September debits were 3 per cent below September 1943, while for this year, January through September, a 7 per cent increase over the like 1943 period is indicated.

Combined totals of all reporting centers in the Ninth Federal Reserve District place September 1944 11 per cent below the ninth month of last year and shows an 8 per cent gain when the first nine months of the two years are compared.

Mrs. Walch Is Taken By Death

Mrs. Pearl Mina Walch, 64, died Saturday morning at 11 o'clock at her home. She had been ill for the past several months. Surviving is one sister, Mrs. Ted Hanson, of Escanaba. The body was taken to the Allo funeral home for preparation for burial. Arrangements for the services are incomplete.

The District of Columbia is made up of territory which originally was part of Maryland and Virginia.

Mrs. Eva Sell, 83, Of Danforth Dies, Funeral Tuesday

Mrs. Eva Sell, 83, of Danforth, died Saturday morning at 10:20 o'clock, at St. Francis hospital. She had been ill for the past year, and for two months was confined to bed most of the time.

She was born on October 3, 1861, in Waterloo, Wis., and lived in Columbus, Wis., for fifty years before coming to Michigan three and a half years ago to keep

house for her brother, Herbert J. Stam, of Danforth.

Surviving are the one brother, four nieces and one nephew.

The body was taken to the Anderson funeral home where it will be in state this evening. Services will be held at the funeral home chapel at 2:30 o'clock Tuesday afternoon, and burial will be made in Lakeview cemetery.

The Marianas Islands were transferred from German ownership to Japanese mandate after World War I.

Upper Peninsula
Pair Tournament
Opens Saturday

BY L. W. OLSON

The annual pair tournament emblematic of the open pair championship of the upper peninsula of Michigan will begin next Saturday evening at 8 o'clock when the qualifying rounds get under way. This annual event which brings to the winning pair possession of the Escanaba Daily Press trophy for the year, always proves to be the most interesting tournament of the year.

Last year's winners, Mr. and Mrs. J. Ferguson, will be on hand to defend their laurels. This year's event should bring out the largest crowd of local players of any year to date, the reason being that the seasons will be played on two consecutive days, the finals starting Sunday afternoon at 2 o'clock and finishing about 5 o'clock. Local entries have always felt that the way it was run in former years was too much of a strain. This year the tournament has been set up especially for them.

I wish to urge all local players to support this event this year. Those who haven't entered as yet can do so by calling me at 1260-W. Please do so at once as I would like to have all entries in by Friday night the latest.

MARRIAGE ANNOUNCED—Announcement is made of the marriage of Miss Beatrice Pilon, daughter of Mr. and Mrs. Edward Pilon, of Bark River, and Edward Murray, son of Mr. and Mrs. Adam Murray of Spalding. The ceremony was performed by Rev. Father Frank Selfert, of Spalding, and attendants were Mr. and Mrs. Peter Glovacki, (Ridings Photo).

Social - Club

Covenant Aid Social
The Ladies' Aid of the Evangelical Covenant church will hold its monthly social meeting Wednesday afternoon, beginning at 2:30 o'clock, in the church parlors. A program will be given. Hostesses are Mrs. Gust Willman and Mrs. Fred Sandborn. A cordial invitation is extended to members and friends. Members are asked to note the change in the day of the meeting, which usually is held on Thursday.

Clover Circle
Clover Circle of the First Methodist church will meet at the home of Mrs. Mark Hansen, 323 North 15th street, for a pot-luck on Thursday afternoon.

Soo Hill P. T. A.
The Soo Hill Parent-Teacher association will hold a regular meeting Wednesday evening, October 18, at the school. Miss Elsie French will give a talk on missionary schools in Egypt. Lunch will be served after the program. All members of the unit and their friends are cordially invited.

Canton Ladies' Auxiliary
The Ladies' Auxiliary to Canton Hlawaatha No. 48 will meet Wednesday evening, October 18, at the home of Mrs. Earl Petersen at Fox. All members are asked to be present.

Altar Society Meeting
St. Joseph's Altar society will hold its monthly meeting Wednesday evening beginning at 8 o'clock in the parish hall. All members are asked to attend. Mrs. John H. Meier and her committee will be in charge of the social to follow the business meeting.

Evening Star Society
The Evening Star society will hold a regular meeting Thursday evening, October 19, beginning at 7:30 o'clock, at the North Star hall. After the meeting a grocery party and a harvest and bake sale will be held. The public is invited to attend.

B. A. of R. E. Meeting
A meeting of the B. A. of R. E. will be held Tuesday evening, October 17, beginning at 8 o'clock. Games for members only will follow the meeting.

B. & P. W. Club
The Escanaba Business and Professional Women's club will join the Lions club in a dinner meeting Monday evening at 6:45 o'clock at the Sherman hotel. The program will include a talk by P. W. Maynard of the OPA and vocal solos by Frank Hirt, who will be accompanied by Mrs. Hirt. Mrs. Lillian H. Reynolds is in charge of club arrangements.

Club Bake Sale
The Chicago & North Western Railway Woman's club will sponsor a pantry sale at the Bonefeld furniture store on Saturday, October 21. Mrs. P. C. Dube is chairman of the committee in charge.

Bill Thielicke
In Cast Of Play

East Lansing, Mich., Oct. 14—William Thielicke, Escanaba Junior at Michigan State College, will play a supporting role in the all-college production of "Kind Lady" according to a recent announcement by Don Buell, assistant professor of speech and dramatics. Thielicke, enrolled in the School of Engineering, is the son of Mrs. Carrie E. Thielicke, 610 S. 13th street. He was previously cast in "Claudia," the term play presented last fall.

"Kind Lady," which will be presented Nov. 17 and 18 under the sponsorship of Theta Alpha Phi, national dramatics honorary, one of the outstanding Broadway successes several seasons ago. Thielicke's role in the psychological "thriller" is that of Mr. Edwards, a friend of the family.

St. Anne's Club
Meeting Tuesday

The first meeting of the year of St. Anne's Home and School club will be held Tuesday evening, beginning at 8 o'clock, in the school basement. Interesting and instructive talks will be given by Mrs. Nancy Thomas, librarian of the Carnegie public library, and Mrs. John Luecke, chairman of the Junior Red Cross and of the salvage committee. Parents will meet with the teachers and visit the school rooms after the meeting. All members of the club and their friends are invited.

Mental Clinic
Here Thursday

Dr. William Purnort, of the staff of Newberry State Hospital will conduct his regular mental health clinic in the offices of the Delta County Health Center, Thursday afternoon, October 18, from 1:30 to 4:30 p. m. He requests that cases should register ahead of time so as not to be left out of consultation. Parents with problem children are also invited to come in for consultation in due time.

Church Events

Quarterly Conference
The first quarterly conference of Methodist churches of the district will be held this afternoon at 3 o'clock at the Central Methodist church, with Dr. G. Gordon, district superintendent, presiding. Churches participating in the meeting are Gladstone, Bark River, and First Methodist and Central Methodist of Escanaba.

Clinic, Success,
Cooperation In
All Departments

The orthopedic clinic for crippled children of Delta county, held here recently, was most successful. It was reported yesterday, with 119 cases examined by Dr. Eugent Elzinga, orthopedic surgeon of St. Luke's hospital, Marquette, the number including 21 new cases.

Cooperating in the varied details involved in conducting the clinic were:

John A. Lemmer and the personnel of the Junior high school; Miss Gertrude Sheahan, city school nurse; staff of the Delta county health department; Dr. Elstein, Delta county health director; Rotary club for their very generous support and to members for use of their cars; and lunch committee under the very capable chairmanship of Mrs. A. W. Erickson, of the Parent-Teacher Association; Mesdames Byron Braams, Mrs. John Pearce, Antone Holmes, A. M. Desilets, Clint Dunathon, R. Hamilton, John Gault, Walter Carlson, Charles Neunier, John Walkenover, Mayer Jacobson, George Mikolovich, A. M. Jensen, Abe Herro, Doris Haglund, Thaxter Shaw, Charles Jones, Joseph Shipman, John Promer.

Those assisting with the clinic were:

American Legion Auxiliary: Mrs. J. A. Colbert, Mrs. William Petry, Mrs. Martha Baldwin, Mrs. J. P. Ambeau, Mrs. N. P. Thompson.

Delta County Lay Health Committee: Mrs. C. L. Riegel, chairman, Mrs. John Luecke, Mrs. P. C. Beauchamp, Jr., Miss Margaret Paeske, Mrs. Donald Boyce, Mrs. R. J. Sabourin, Mrs. Mary Van Effen, Mrs. Ovilla Savard, Mrs. Edith Forsman.

Senior high school: Miss Barbara Norton, Miss Ada Faye Hansen, Miss Prevost.

Rotary club: James Degnan, Leslie Olson, George Lindenthal, Mathias Petersen.

WED SATURDAY—Mrs. Richard J. Potvin, bride in a ceremony at Flint on Saturday, is the former Treva R. Hardin, of Kennett, Missouri. The couple will live in Flint at 226 E. Flint Park Blvd. Mr. Potvin, a son of Mr. and Mrs. Elmer Potvin, of Bark River, recently received his medical discharge from the Army after three years of service, two of which were in the Southwest Pacific area.

Personal News

Mr. and Mrs. Ray D. Clark, of Milwaukee, former residents of Escanaba, visited here the latter part of the week. Mr. Clark returned to Milwaukee Saturday night, and Mr. Clark continued on to North Miami, for a few days of bird hunting.

Harry Bourke, Jr., and daughter, Sally, have arrived from Wausau, Wis., for a week's visit at the home of Mr. Bourke's parents, Mr. and Mrs. Harry P. Bourke, 610 South Fourteenth street.

Petty Officer Roy Hebert arrived Tuesday night in Escanaba to visit his wife, and his mother, Mrs. Paul Hebert, 429 South 16th street. He is serving with the U. S. Coast Guard on convoy duty, and has made four Atlantic crossings. Thursday and Friday he and his wife visited at the home of Mrs. Hebert's mother, Mrs. Gifford Way at Cornish. Sister Dorothy Jean of Plymouth, Wis., is in Escanaba to visit her mother, Mrs. Paul Hebert, and her brother, Petty Officer Hebert.

Axel Larson and his son, T/Sgt. Raymond K. Larson, and daughter, Jeannette, of Two Harbors, Minn., have returned to their homes after spending two days as guests at the home of Mr. and Mrs. Charles Larson at Wells. Axel and Charles are brothers. T/Sgt. Larson recently returned from the European war theater, where he engaged in 51 bombing missions over Germany.

Second Lt. Frances Jerow, who is stationed with the WACs at Camp Custer, has arrived to spend a 10-day furlough with her parents, Mr. and Mrs. Jerry Gerow, 517 South Twelfth street.

Miss Dorothy Jaeger of Chicago is spending the weekend at the home of her parents, Mr. and Mrs. Richard Jaeger, Ford River.

Yeoman 1/c John Baribeau arrived Saturday night from New Orleans to spend a leave at the home of his parents, Mr. and Mrs. Philip J. Baribeau, 538 North 18th street.

Miss Mary Vinette left Saturday for Peoria, Ill., to resume her studies at St. Francis School of Nursing, after spending a few days here at the home of her mother, Mrs. E. J. Vinette, 400 South 14th street.

The name Batavia is derived from the Netherlands word "Bataven," first inhabitants of the low countries about the year 50.

The first coins minted in the United States were cent and half-cent pieces, which appeared in 1793.

Birth statistics show that quadruplets occur once in 658,403 births.

Missouri Girl
Is the Bride of
Richard J. Potvin

Miss Treva R. Hardin, daughter of Mr. and Mrs. Hardin of Kennett, Missouri, exchanged vows with Richard J. Potvin, son of Mr. and Mrs. Elmer Potvin of Bark River, in a ceremony which took place Saturday morning at 10 o'clock at St. Michael's church in Flint.

The Rev. Father Martin read the service in the presence of immediate family members and close friends.

The bride wore a street length dress of powder blue silk crepe with a matching hat and brown accessories and her corsage was of red roses and forget-me-nots. Eva Mae Potvin, sister of the bridegroom, who was maid of honor, wore a melon red silk crepe dress with nailhead trimming, and matching accessories and a corsage of white gardenias.

Louis Kelush, a close friend of the bridegroom, was best man. A reception was held at the home of the bridegroom's brother-in-law and sister, Mr. and Mrs. Richard King, of 3416 Fleming Road.

The couple will live in Flint at 226 E. Flint Park Blvd.

Mr. Potvin, who has a medical discharge from the army after serving three years, two years with the 32nd Division in the Southwest Pacific, is now employed at the A. C. Spark Plug Division in Flint.

Out-of-town guests at the wedding were Mrs. A. Y. Hardin of Kennett, Mo., and Mrs. Elmer Potvin, of Bark River.

School Groups
Giving Concert
Monday Evening

The high school musical groups heard on programs at the MEA convention the first week in October, will be presented in a concert Monday evening at William W. Oliver Memorial Auditorium, under the direction of Paul Bowers and Frank Karas.

The concert will begin at 7:30 o'clock and is open to the general public, exclusive of grade school children. There is no admission fee.

The program is as follows: Escanaba High School Band; Hamilton Field March, McDon-ald.

The Travellers Overture, Buchel. Lee's Favorite, March, Lee. Baritone solos, Dan Raess: Russian Song.

The Lord's Prayer, Malotte. Mrs. Gertrude Hogander, accompanist.

Grade School Orchestra: Send Out Thy Light, Gounod. Grand Opera Selections, Maddy. American Medley, Maddy. Massed Girls' Glee Club: Marita, Morgan.

The Forest Hymn, Moore-Klemm.

Smoke Gets in Your Eyes, Kern. Make Believe, Kern.

All mankind, according to Prof. A. C. Haddon, ethnologist, can be divided into three kinds—woolly hair, wavy hair, straight hair.

The Suez canal, 104 miles long, is 53 miles longer than the Panama canal.

Health Clinic
At Rock Tuesday

A child health clinic will be conducted by Dr. M. A. Elstein of the Delta County Health Unit, in the library of the Rock high school Tuesday afternoon, October 17, from one to three o'clock. Children from infancy to five years are invited. Immunization against whooping cough, diphtheria and small pox will be available. There will be no charge for this service.

Protect Your Family's Health
Everyone needs vitamins. When choosing your vitamins, look for the Olafsen label. It is your guarantee of quality, effective potency and freshness. Olafsen products are made to scientifically balanced formulas and packaged under most rigid control. There is an Olafsen Vitamin product for most every vitamin deficiency. There are convenient small sizes for the individual and economical quantities for the entire family.

Mary C. Canavan
Completes Course

Sweetwater, Texas, Oct. 14—WASP Mary C. Canavan, daughter of Mrs. Marvin L. Coon of 421 South Eleventh street, Escanaba, Mich., has completed an intensive course in instrument flying at Avenger Field, Sweetwater, Texas, the AAF Training Command's unique school for the Women's Air Force Service Pilots.

Graduates of the advanced instrument course are all full-fledged WASPs who won their wings at Avenger with earlier classes. They returned for post-graduate studies after serving on a variety of flying assignments with the Army Air Forces. Many have flown speedy combat-type planes regularly on ferrying runs and tow target missions within the U. S., releasing army flying officers for higher grades of duty.

Avenger's instrument curriculum is the equivalent of that offered at the AAF Training Command's famed instrument school at Bryan, Texas. Col. Joseph Duckworth, commanding officer of the Bryan school and one of the world's foremost instrument flight experts, together with his staff of Bryan instructors assisted in setting up the WASP program. Bryan flight and Link instrument trainer instructors, supervise the Avenger course.

WASPs who have completed the advanced "blind flying" course will return to the jobs, better all around pilots, equipped to cope with the flying emergencies caused by weather disturbances.

Chapter Annual
Meeting Tuesday

R. C. Hatheway Chapter No. 49, Order of the Eastern Star will hold its annual meeting at the Masonic Temple Tuesday evening, October 17, the meeting to be preceded by a pot-luck dinner which will be served at 6:15 o'clock. Reservations for the dinner are in charge of Mrs. Edward F. Erickson. Election of officers will be held and the annual reports will be read. The meeting, usually held in November, was advanced to October this year.

Rev. Schabow Is
P-T-A Speaker

Rev. A. A. Schabow, pastor of St. Paul's Lutheran church of Hyde, will be the speaker at the regular meeting of the Pine Ridge Parent-Teacher association to be held at the school Thursday evening, beginning at 7:45 o'clock. A social will follow the business meeting and the program. Everyone is cordially invited to attend.

"I LOST 52 Lbs.!"
WEAR SIZE 14 AGAIN!
Mrs. C. D. WELLS, FT. WORTH, TEX.
As Pictured Here—You may lose pounds and have a more slender, graceful figure. No exercise. No drugs. No laxatives. Eat meat, potatoes, gravy, butter. The experience of Mrs. Wells may or may not be different than yours, but why not try the Ayds Plan? Look at these results.

In clinical tests conducted by medical doctors more than 100 persons lost 14 to 15 pounds average in a few weeks with the AYDS Vitamin Candy Reducing Plan.

With this Ayds Plan you don't cut out any meals, starches, potatoes, meats or butter, you simply cut them down. It's simple and easier when you enjoy delicious (vitamin fortified) AYDS before each meal. Absolutely harmless. 30 days supply of Ayds only \$12.50. If not delighted, MONEY BACK with the very first box. Please.

MARBLE CREWS
SET FUND PACEPledge 1 1/4 Day's Pay To
War Chest Drive
For 1944

Employees of the Marble Arms and Manufacturing Co., and the Marble-Card Electric Co., and members of the CIO, Local No. 126 of the two plants set a pace which if followed generally should result in Gladstone and Delta county going over the top in the War Fund drive now under way.

Last year it was figured that if every worker in the city gave a day's pay the quota would be reached and it was handily.

This year, the quota has been increased and so employees and members of the local for the two companies voted to give a day's pay plus 25 per cent.

Carl Nyberg Jr., treasurer of the CIO Local, is chairman of the drive for both plants.

Briefly Told

Dartball Tourney—Members of the Lutheran Brotherhood of Gladstone will travel to Manistique to compete in a dartball tournament with teams of the Lutheran church in Manistique.

Townsend Club—A. T. Rossow will report on the recent state convention and on non-partisan recommendations at a regular meeting of the Gladstone Townsend club Monday night at 7:30 o'clock at the city hall. The public may attend. It will, declares Mr. Rossow, provide all with an opportunity to learn how the Townsend organization functions.

Legion Meeting—A regular meeting of August Mattson Post, No. 71, American Legion, is to be held at the clubrooms in the Legion hall Monday evening.

Practice For Initiation—Initiation practice of Job's Daughters will be held on Monday evening at 7 o'clock sharp at the Masonic hall.

Sisters Shower—The annual shower for the Sisters of All Saints school will be held on Wednesday afternoon at 2:30 o'clock.

Degree of Honor—There will be a business meeting of the Degree of Honor on Monday evening at the home of Albert Latimer. All members are expected to attend.

Social

Coterie

Mrs. Paul Bushong will entertain the Coterie Tuesday afternoon at her home on Wisconsin avenue. The meeting will begin promptly at 3 o'clock. The program will include "Wonders of Cellophane" by Mrs. C. A. Clark, "Synthetic Silk" by Mrs. Nettie Kee and a review of a portion of John Bartlow Martin's "Call It North Country."

Arrange Memorial To Mrs. LaFaver

The gift of neighbors and friends, a gold cross will grace the Children's Chapel of Memorial Methodist church as a memorial to Mrs. C. W. LaFaver, who passed away last week. Mrs. LaFaver had long been a member of the Sunday school staff and had expressed a wish that the Children's Chapel have a gold cross.

Civic Choral Club
Meets Monday Night

The Civic Choral club will meet Monday evening at 7:30 o'clock in the music room in the junior high school. It is announced by Miss Marie Burkland, director.

Members are requested by Miss Burkland to bring the Messiah scores with them at the time.

Mrs. Robert Gazlay
Joins Nurse Cadets

Mrs. Robert Gazlay of this city has joined the Nurses Cadet Corps and is training at Jackson Park hospital at Chicago. Mrs. Gazlay is the former Miriam Weintrauer. Mr. Gazlay is in service.

Social

Birthday Party

Marlene Marks, daughter of Mr. and Mrs. Robert Marks, entertained a number of her friends Thursday afternoon in honor of her eighth birthday anniversary.

The afternoon was spent in playing games with first prize being awarded to Margaret Mueller. Tasty refreshments were served at the close of the afternoon. Decorations were in the Halloween motif, with a birthday cake as the centerpiece.

Marlene received many nice gifts from her friends who were: Nancy and Mary Jean Elliott, Lenore Richards, Darlene Jordan, Sally and Mary Lou Stuart, Margaret Quick, Patsy Kennedy, Margaret Mueller, Margaret Cowman, Phyllis Garvin, Janet Sheahan, George Marks, Jr., and Charles and Chester Elliott.

Bethany Society

The Bethany Society of the Zion Lutheran church was held Friday evening in the church parlors.

The regular business session was held after which Miss Nancy Cookson played the following violin solos: Elegie, by Massenet, and Hungarian Dance No. 5, by Brahms. Marie Ahlstrom served as devotional leader.

Delicious refreshments were served at the close of the evening. Mrs. Andrew Maitland, and Miss Esther Soderbeck served as hostesses.

Mrs. Felix Vattekaas was a guest at this meeting.

Bridge Club

Mrs. Thomas Bolitho entertained the members of her bridge club Thursday evening at her cottage at Harrison Beach.

High score was received by Mrs. G. S. Johnson, and Mrs. John Kelly, second.

A delicious lunch was served at the close of the evening. Mrs. N. L. Lindquist was a guest at this meeting.

Women's Club

"History of American Song," will be the title of a talk by Monica Irvine before the second meeting of the year of the Manistique Women's club. She will be accompanied by Estelle Zerbel.

Hostesses at the meeting will be Mrs. James Fyvie, chairman; Mrs. Willard, Mrs. Clarence Chase, Mrs. Alex Croighton, Mrs. William Duchene, Mrs. L. J. Harbick and Mrs. C. F. Anderson.

Rotary Entertains
Potato Show Men

Manistique Rotary club will be host to officials of the Schoolcraft county potato show at its weekly meeting for a noon luncheon at the Elks club, which has been changed from Monday to Wednesday.

Guests present will be Alphonse Verschure, county potato king, the potato show committee and members of the board of directors as well as D. C. McLeod, agricultural agent for the Soo Line railroad from Valley City, North Dakota.

Committeemen present will be: James Wieland, chairman; Leland Pawley, vice-chairman; J. L. Heirman, secretary; Fred Hahne, treasurer.

Four members of the board of directors are: Russell Tennant, Otmer Schuster, William McEachern and William Norton.

City Briefs

Miss Florence Gilroy is spending the week end here at the home of her parents, Mr. and Mrs. Arthur Gilroy. Miss Gilroy is teaching school at Fayette.

Mrs. L. R. Thornton and Mrs. Vilas Young left last night for Flint where they will attend the Rehearsal Assembly of Michigan as delegates of the Agnes Rebekah Lodge No. 159.

Mr. and Mrs. Claude Carson and son of Everett, Michigan, are visiting here at the home of Rev. and Mrs. B. G. Wyma.

Mrs. Carson Carstensen and daughter, Mrs. E. J. Doyle, are spending the week end in Iron Mountain.

Mr. and Mrs. Fred Stephens and daughter, Jean, are returning today to Kalamazoo, after visiting here with Mr. Stephens' father, John Stephens, and other relatives.

Miss Leffie Cornell of Detroit is spending a few days here and Germfask with friends and relatives.

Breaking Bottlenecks

Shortage of labor in West Coast aircraft plants has resulted in plant supervisors and foremen pitching in as manual laborers to break bottlenecks, and the part-time hiring of servicemen based nearby.

News From Men
In The Service

After two years of training, Aviation M. M. 1/C. Charles Larson, 20 year old son of Mr. and Mrs. John Larson of 724 Garden avenue, has been assigned to sea duty. Entering the Navy 2 years ago, Larson showed such adaptability that he was sent to a specialist school in Chicago where he spent almost a year and a half. From there he was shipped to the west coast where he took additional training at stations from Oregon to California. He is the oldest of four children, three boys and a girl.

Word has been received here by Mrs. Clifford Lehman that her brother, Sgt. Matthew Rodman, has been awarded the combat infantryman badge for exemplary conduct in action against the enemy. Sgt. Rodman is serving in France.

Another brother, S. Sgt. Joseph Rodman, has served overseas in the North Africa, Sicily and Italy campaigns. He has been moved to southern France.

First Lieut. George Lesica, personnel officer at Camp Lee, Virginia, visited at the home of his parents, Mr. and Mrs. Joseph Lesica, Sr., prior to proceeding to Fort Sam Houston, Texas, where he will attend an advanced officers administration course at the adjutant general's school. Upon completion of this course Lieut. Lesica will return to Camp Lee and resume his duties with the enlisted personnel division.

Bilda C. (Ina) Jackson, S. 2/C., daughter of Mrs. John Jackson of Gulliver, has been transferred from Hunters college, New York, to Shoemaker, Calif. Miss Jackson has been in the WAVES since August 9.

CARD OF THANKS

We wish to express our sincere appreciation for the wonderful celebration arranged for us in honor of our golden wedding anniversary. We especially wish to thank the Golden Star Lodge, the Norwegian Ladies' Aid, and all other friends and neighbors for the beautiful floral tributes and for all other fine gifts which contributed to our happiness on this anniversary observance. We assure you all that this will always remain one of our happiest memories.

(Signed)
Mr. and Mrs. Nels Anderson

NOTE ANDERSON
GOLDEN WEDDINGMarried Here Oct. 11,
1894, In Norwegian
Church

Approximately 75 people visited Mr. and Mrs. Nels Anderson on Oak street Wednesday on their golden wedding anniversary. The Norwegian Lutheran Ladies' Aid held a party there in the afternoon and in the evening there was open house.

In the afternoon, a mock wedding was presented and Mrs. Chris Dreydahl, who sang at the couple's wedding 50 years ago, gave her recollections of the ceremony. A luncheon was served.

The Golden Star Lodge, of which Mr. and Mrs. Anderson are members, gave a surprise party for them Thursday evening. There were about 30 lodge members present. Speakers extended congratulations and best wishes to the couple were Charles Lundvall, Adolph Asp, past president, Gust Larson; chaplain, John Hagblom. A gift of money from the lodge was presented to the Andersons. A large wedding cake decorated the center of the table at which refreshments were served.

Nels Anderson and Martha Olsen came from Norway in 1893 and in 1894 were married in the Norwegian church by Rev. Tuldor Tennyson. They have maintained continuous residence in Manistique since that time.

They had two children, Arthur residing in Manistique and Alfred, deceased. There is one grandchild, Jerry, age 12.

Youth Arrested
For Drunkenness

Wilbur Chartier, 21, pleaded guilty to a charge of drunk and disorderly Saturday before Justice W. G. Stephens who fined the boy \$10 plus \$3 for the doctor who treated his cuts and the cost of a window he broke in the West-side tavern on Dear street. He was arrested by local police at 2:30 a. m. Saturday after he had smashed a plate glass window of the tavern with his hand.

DRY CLEANING is DRY CLEANING

Thinks the average customer, not knowing that there is a difference. Ideas, theories and applications vary greatly. Old time dry cleaning leaves garments gummy, easily soiled and is not high grade work. But a modern system rinses garments eight times in crystal clear fluid then air cleans them bringing out colors brilliantly. That's why you get quality cleaning at

BRAVES CRUSH NEWBERRY 11

Indians Smothered As Keilmen Retain Unbeaten Record

Newberry, Oct. 14—Gladstone high school's football team trimmed the Newberry Indians, 32-0, here today to retain its undefeated record. The Braves were in command all of the way.

Kallman scored the first touchdown for Gladstone in the opening quarter, climaxing a sustained drive and he also scored the second touchdown in the following quarter, with Haglund converting.

Haglund scored from the 30 yard line in the third quarter but missed the point, making the count 19-0. Enstrom, who substituted for Sigan, counted the fourth touchdown, also in the third quarter and Haglund converted.

In the fourth period Lavelle wound up the Gladstone scoring by adding a counter from the 32-0 yard line to make the score, 32-0. The remainder of the game was played by the Gladstone reserves, who were unable to stop the Indians. Fawcett scored for Newberry after a drive of 60 yards, aided by a 15 yard penalty. He also scored the extra point on a line smash.

The Indians did not threaten the Gladstone goal, however, when the Braves were playing their first string in the game.

The lineups:

IRISH PUMMEL INDIANS, 64-0

BY BILL KING

Boston, Oct. 14 (AP)—Notre Dame's fighting Irish ran up their highest point total since 1932 as they crushed Dartmouth, 64-0, while making their first New England football bow in 30 years today. It was the most humiliating setback the Indians from Hanover, N. H., have suffered since their Yale game of 60 years ago.

While scoring 10 touchdowns, the Notre Dames, rated as the nation's top football team, set up four counters for three of their greater-Boston products, Frank (Bolsy) Dancewicz, who made two trips into the Dartmouth end zone on a one yard plunge and a 33-yard sprint, and substitutes Johnny Corbisiero and Eddie Glasby.

Using a total of 12 speedy backs in the one-sided action, the Irish scored in every period while rushing the ball for a total of 429 yards and 19 first downs. The Dartmouth carriers made 54 yards overland but, thrown for a total rushing loss of 72, wound up with a minus 18 total and six first downs.

The visitors from South Bend broke loose for four counters in the second period and again in the finale. The only weakness the Irish displayed was in their extra-point kicking department, for they missed six of their post-touchdown chances.

The longest scoring sprint was the 60-yarder that Steve Nemeth reeled off in the fourth period and in the previous session, Nunzio Marino raced 53 yards through the hapless Indians. The other touchdown-makers were the fleet Bob Kelly, Elmer Angeman, Joe Gasparella and George Terlep.

Ohio State Beats Wisconsin, 20 to 7

Madison, Wis., Oct. 14 (AP)—Ohio State's unbeaten Buckeyes, sparked by Veteran Les Horvath, pounded over two last period touchdowns to tumble Wisconsin from the undefeated ranks, 20-7 in a bitterly-fought Western Conference battle here today.

Although Horvath scored only one of Ohio State's three touchdowns, it was the ripping thrusts of the four-season star that eventually broke the back of a gallant Badger eleven whose Freshman Girard performed up to par.

Ironwood, Maroons Will Play On Nov. 4

Ironwood and Menominee, two of the peninsula's leading football teams, will meet at Menominee November 4. It has been announced. The teams have signed a home and home contract, the second game to be played next year at Ironwood.

WILL PLAY WOOSTER

Kalamazoo, Mich., Oct. 14 (AP)—Western Michigan college winding up its football campaign with one of its earliest finales in history, invades Wooster, Ohio, next Friday afternoon to oppose Wooster college in the Bronco's seventh and last encounter this season.

THE TACKLER MISSED — The Kingsford player who is making a lunge at the unidentified Escanaba ball carrier in this picture missed the tackle. The number of the ball carrier is not visible in this picture. No. 60 is Wickholm and No. 36 is MacRae. The Eskymos lost the game, 13 to 12.

The Sports Parade

By Ken Gundersman

The arguments that hob up from time to time concerning the comparative values of football formations, such as the T-formation, the Roekne shift, the double wing, the long and short punt formation, etc., make a lot of fodder for hot stove gabfests and sports columns but actually there is a marked and inseparable similarity of all football formations. The success of any football formation depends entirely upon good blocking. With it any formation looks good and without it, any formation looks bad.

The Green Bay Packers, for instance, use the Notre Dame shift. It worked wonders this fall against all opposition and particularly against the Chicago Bears, exponents of the T formation. It worked simply because the Packers were doing a better job of blocking than the Bears. The Eskymos under Coach Ruwitch also use the Notre Dame shift but it

PACKERS LOSE IN EXHIBITION

Philadelphia Eagles On Heavy End Of 38-13 Score

Nashville, Tenn., Oct. 14 (AP)—Scoring in every period and thoroughly outplaying their plucky opponents, the Philadelphia Eagles defeated the Green Bay Packers 38-13 here today in the first big-time professional football game ever played in the South.

The exhibition was staged for the benefit of the 26th Ferrying Group's athletic fund.

The Eagles scored on both ground plays and on passes. From the opening kickoff the Eagles marched on ground plays to the Packers' 32 where Hinkle passed to Ferrante who was shoved out of bounds on the 10. Two plays later Hinkle slashed around right end to score. Minutes later Miller intercepted Brock's pass and was downed on the Packer 12. On the next play Hinkle again went around right end and scored standing up.

Philadelphia's third tally came on a pass from Zimmerman to Gauer. Bleeker raced 17 yards for the fourth and Macloszyk charged two yards through center for the last. Zimmerman's place kicks were good after all the Eagle touchdowns and in the second period he booted a field goal from the 11-yard line.

Perkins crashed over for the Packers' first score in the second after passes had placed the ball on the one foot line. Their other score, in the third period was on a placement.

State College Will Play Night Football

East Lansing (AP)—Return to night football next Friday evening against the University of Maryland at College Park, Md., awakes unpleasant memories for Michigan State college. State has played two games under the arcs in past years and not only lost both games but each time saw an opponent streak a kickoff back for a touchdown.

In 1930 when Jimmy (Sleepy) Crowley was coaching at State the Spartans played their first night game with Georgetown university at Washington, D. C. State encountered a 14-13 defeat. Georgetown ran back the kickoff to start the second half. In 1940 at Philadelphia the Spartans had another sad experience. Temple university scored on the opening kickoff and went on to win, 21-19. Temple scored all of its points in the first half and State produced its scores the second.

EMERALDS LICK ALGERS AGAIN

Reverse Plays Feature 19-0 Victory At Munising

Munising, Oct. 14—Manistique scored its second victory of the season over Munising here this afternoon, 19 to 0, but the Algiers gave the Emeralds a much harder fight than in the opener which Manistique won, 40 to 0.

Buckley of Manistique scored the first touchdown of the game on a reverse from the 15 yard line after the Emeralds had gained position as a result of a pass, Holmes to Milavec. A plunge for the extra point made the score 7 to 0.

In the second quarter Munising made several first downs but finally was forced to yield the ball. The Emeralds started a second touchdown drive that was climaxed by a neatly executed reverse with Burns scoring from the seven yard line. The play fooled even the referee who followed another ball player over the goal while Burns was running unmolested around the other end.

Munising had several scoring chances in the third period but was unable to break through for its first touchdown of the season. At one time they advanced to the five yard line and another time gained position by recovering a fumble on the eight yard stripe. This chance fluked out when Beattie was knocked down on the two yard stripe.

The third touchdown by Manistique was scored in the fourth period on a long pass from Milavec to Schuster. The Manistique end snugged a 30 yard pass on the 25 yard line and scooted home for the score.

The lineups:

Manistique	Pos.	Munising
Schuster	LE	Knowles
Patz	LT	Steinhoss
Jahn	LG	Jensen
Hentschell	C	Johnson
Rozich	RG	Beattie
Schnurer	RT	G. Steinhoff
Couraya	RE	Reed
Crichton	QB	Mazzali
Burns	HB	Tervo
Milavec	HB	Bernard
Buckley	FB	Oas

RAMS TO PLAY LIONS TODAY

Cleveland Team Recently Defeated Chicago Bears, 19-7

Detroit, (AP)—Cleveland's surprising Rams who came back with violence after a year's absence from the National Football league, ride an undefeated record into Briggs Stadium Sunday for their pro contest with the Detroit Lions, over the Chicago Bears.

Fresh from a hard-earned 19 to 7 decision over the Chicago Bears, which followed a 30 to 28 high scoring verdict over the highly-regarded Card-Pitt combination, the Rams arrive here a far cry from the pushover they were generally conceded to be in pre-season forecasts.

The Lions, too, revitalized by a series of backfield shifts that sent Fireball Frank Sinkwich back to his familiar left half back post from where he personally escorted Detroit to a 19 to 14 victory last week over Brooklyn, are loaded with surprises.

Sinkwich, moved over from quarterback where he operated earlier in the season, and rookie Bob Westfall, shifted from left half to fullback, are expected to bear the brunt of the Lion offense against the Rams. Cleveland, one of the top passing clubs of the circuit, again probably will bank on the pitching of ex-Lion Tom Colbela and the catching of Jim Benton, former Arkansas end and now in his seventh season of pro ball.

Chicago has 1,676 churches and 2,200 clergymen.

FLIVVERS TAKE 13-12 VICTORY

Escanaba Scores In Final Second But Misses Point

The Eskymos lost to Kingsford, 13 to 12, here yesterday because of inability to convert the points after touchdown. In the second game this season sustained due to this dereliction. In the second game this season, Escanaba lost to Iron Mountain, 7-6.

Trailing 13 to 6 in the closing minute of play, MacRae passed from the Kingsford 38 yard line to Ross, who drilled his way to the one foot line. The first play netted nothing and with only seven seconds of time remaining, the Eskymos called time out, their fourth in the half which drew a five yard penalty. Then MacRae passed to Bill Peterson in the end zone for the touchdown as time ran out.

Needing to score the point after touchdown to gain a tie with the Flivvers, the Eskymos elected to try a play from scrimmage. The pass bobbed into the end zone incomplete and the game was lost.

Kingsford's first touchdown came on a 94 yard run by Kosovev that stunned the small crowd that huddled in blankets in the bleachers. Driven back to their own six yard line, the Flivvers sent Kosovev right through the middle of the line on a spinner. The Eskymos obviously were fooled by the play and Kosovev picked an opening through the line and shot into the clear. When he reached the 30 yard stripe he was out in front of everyone and raced all the way virtually alone. A pass for the extra point was incomplete.

Schneider scored on the fourth quarter, Scott got off a beautiful punt with the wind from his own 12 yard line to the Kingsford 12 yard line, a 76 yard boot. Kingsford punted back to their own 44 yard line. Schils made five yards and then MacRae ran 33 yards to the six yard line as the quarter ended.

Corbett drove to the one foot line on the first play of the second quarter and Schneider scored on a quarterback sneak. Scott's pass to Finn for the extra point was knocked down.

Kingsford received the kickoff on its own 33 yard line and advanced to the Escanaba 46 on six plays. Then Kosovev passed to Edwards, who ran behind the Escanaba secondary defense to receive the pass. Edwards raced to the goal line for the second touchdown and LeBoeuf kicked the extra point, the conversion that eventually resulted in the Flivvers' victory.

The Flivvers made one more scoring threat before the half ended. Two penalties brought the ball to the Escanaba 38 yard line from where Kosovev passed to Paternoster for a first down on the 19. A penalty advanced the ball to the 14 and the Flivvers made a first down on the nine yard line. Scott intercepted a pass on his own one yard line to stop the threat and Escanaba retained possession until the half ended.

Escanaba monopolized the play in the third quarter, advancing on successive first downs from their own 35 yard line to the Kingsford 15 yd. stripe but Peterson was smeared for a loss as he dropped back to throw a fourth down pass.

The second Escanaba touchdown was set up by a pass from Peterson to Schils that was good for 20 yards and a first down on the 38. Then MacRae passed to Ross in the closing minute of play. Ross scrambling to the Kingsford one foot line. The next play failed to gain and then MacRae passed to Peterson for the touchdown after the Eskymos were penalized five yards for too many time outs.

The time ran out in the last play but the Eskymos still had a chance to even the score by converting the extra point. They failed when MacRae's pass was

incomplete in the end zone.

Michigan Wins Over Northwestern, 27-0

BY FRANK KENESSON

Ann Arbor, Mich., Oct. 14 (AP)—Smashing for three touchdowns in the first 19 minutes of play, Michigan rolled to a 27 to 0 Big Ten football triumph over Northwestern here today.

Gene Derricotte, freshman Negro halfback from Defiance, Ohio, climaxed an 80-yard Wolverine parade with a 15-yard touchdown punch through the middle of the line just 10 minutes after the game opened and three minutes later Bob Nussbaumer, Oak Park, Ill., marine trainee, swung around left end after taking a lateral pass from Derricotte and sped 26 yards for the second Michigan score. Joe Ponsetto converted the first extra point but his second attempt was wide and the Wolverines had a 13-0 lead before the first period ended.

Michigan drove 62 yards in a dozen plays to open the second period, Nussbaumer swinging around his left end and running 25 yards for the third Wolverine touchdown. Ponsetto again converted to make the halftime score 20-0.

The fourth Michigan touchdown came on the second play of the final period after Nussbaumer had circled left end again for 21 yards to put the ball on the Northwestern six-yard line. Bob Wiese, Jamestown, N. D., fullback, hit left tackle for the score and Ponsetto again connected on the conversion.

Quarterback Fumbles The Wolverines drove to the Northwestern one-yard line midway of the final stanza, but Quarterback Jim Aliber's fumble, recovered by Hubert Hilston, Wildcat center, broke up the march.

Northwestern failed to get a sustained drive going at any point, the deepest Wildcat penetration into Michigan territory being a push to the Wolverine 28-yard line in the opening period with the aid of a 19-yard pass from Johnny Yungwirth, Fond du Lac, Wis., freshman, to End Duane Sickels, of Benton Harbor, Mich. George Burg, Michigan guard, intercepted Yungwirth's next pass on the Michigan 15.

Northwestern pushed to the Michigan 35 against Wolverine third stringers late in the game, but another Yungwirth pass was intercepted on the Michigan 10-

yard line by Halfback Jack Weisenberger.

Michigan, driving 80, 40, 62 and 65 yards for its four scores, had all the better of the statistics, piling up 21 first downs to Northwestern's eight and reeling off 450 yards rushing to the Wildcats' net 24.

Northwestern connected on seven of 26 passes, all thrown by Yungwirth, for 102 yards by air while Michigan completed two passes for 12 yards.

Tip-off on Michigan's supremacy in the rushing department came on the first play of the game from scrimmage, when Wiese smashed through the middle of the line on a spinner and ran 46 yards before being hauled down from behind on the Northwestern 22-yard line by Bob Funderburg, big Wildcat fullback from Belvidere, Ill.

A clipping penalty broke up the threat, however, and the Wolverines lost the ball on downs on the Wildcat 28.

Yungwirth quick-kicked across the goal line for a touchback and Michigan immediately opened its first touchdown drive, with Wiese, Derricotte and Nussbaumer alternating at punching the line for the entire 80 yards.

Fifth Win Over Wildcats

Michigan kicked off, Frank Clawson fumbling on the return and the Wolverines started rolling from the Northwestern 40, Nussbaumer counting the first of his two touchdowns on Derricotte's lateral, the play covering 26 yards.

A Wolverine pass, Weisenberger to Dick Rifenburg for 16 yards, helped set up the third score, also Nussbaumer's on a 25-yard run.

Not content to have a hand in only two scores, Nussbaumer set up Michigan's fourth period tally with a 21-yard jaunt prior to Wiese's six-yard scoring smash.

Ponsetto's three conversions gave him nine out of 10 attempts in five games.

The victory was Michigan's fifth in a row over the Wildcats, who absorbed their third straight defeat since opening the season with an easy win over DePaul.

VIKINGS ROMP OVER TROJANS

Parochial Lads Lose By 40-0 Score At Norway

Norway, Oct. 14—The Norway Vikings ran roughshod over the Trojans of St. Joseph, 40 to 0, here this afternoon after building up a 28 to 0 lead at half time.

The Vikings scored on the third play of the game, Swanson covering the last 20 yards after Norway had moved into position on two long gains. Swanson also counted the second touchdown a little later, this one from the 15 yard stripe.

A 25 yard pass counted the third touchdown for Norway and from there on in, the Vikings were able to gain almost at will against the inexperienced St. Joseph eleven.

The Trojans made a spectacular play for a 60 yard gain on a pass near the end of the first half, ending behind the Norway goal but the play was recalled and St. Joseph penalized for holding.

The Vikings scored another touchdown in the third quarter and the final score in the fourth period.

The lineups:

Norway	Pos.	St. Joseph

The Roving Reporter

(Continued from Page One)

They weren't near enough for the sound to be crashing. Rather it was like the lonely roll of an approaching thunderstorm—a sound which since childhood has always made me sad with a kind of portent of inevitable doom.

We went to bed in our tents. A nearby farmyard was full of dogs and they began a howling that lasted all night. The roll of artillery was constant. It never stopped once in 24 hours. Once in a while there were nearer shots which might have been German patrols or might not.

We lay uneasily in our cots. Sleep wouldn't come. We turned and turned. I snapped on a flashlight.

"What time is it?" asked Chris Cunningham from the next cot.

"Quarter to one," I answered.

"Haven't you been asleep?"

He hadn't.

A plane droned faintly in the distance and came nearer and nearer until it was overhead.

"Is that a Jerry or a Beaufighter," Chris asked out of the darkness.

"It hasn't got that throb-throb to it," I said, "so it must be a Beaufighter. But hell, I never can tell really. Don't know what it is."

The plane passed on, out of hearing. The artillery rolled and rolled. A nearer shot went off uncanonically somewhere in the darkness. Some guinea hens set up a terrific cackling.

I remembered that just before dusk a soldier had shot at a snake in our new camp, and they thought it was a cobra. We'd just heard our first stories of scorpions, too. I began to feel creepy and wondered if our tent flaps were tight.

Another plane throbbed in the sky, and we lay listening with an awful anticipation. One of the dogs suddenly broke into a frenzied barking and went tearing through our little camp as though chasing a demon.

My mind seemed to lose all sense of proportion, and I was jumpy and mad at myself.

Concussion ghosts, traveling in waves, touched our tent walls and made them quiver. Ghosts were shaking the ground ever so lightly. Ghosts were stirring the dogs to hysteria. Ghosts were wandering in the sky peering for us in our cringing hideout. Ghosts were everywhere and their howls were multiplying as every hour added its production of new battlefield dead.

You lie and think of the graveyards and the dirty men and the shocking blast of the big guns, and you can't sleep.

"What time is it?" comes out of darkness from the next cot. I snap on the flashlight.

"Half past 4, and for God's sake go to sleep."

Finally just before dawn you do sleep, in spite of everything.

Next morning we spoke around among ourselves and found one by one that all of us had tossed away all night. It was an unexplainable thing. For all of us had been through dangers greater than this. On another night the roll of the guns would have lulled us to sleep.

It's just that on some nights the air becomes sick and there is an unspoken contagion of spiritual dread, and you are little boys again, lost in the dark.

Should Pick, Dry Milkweed Pods To Get Highest Price

Jerry Marsieck, 222 North 10th street, Escanaba, district field representative for War Hemp Industries, Inc., yesterday advised Delta county boys and girls who are harvesting milkweed pods to place them in bags and dry them in order to get the highest price for their work.

Marsieck asked persons who are harvesting milkweed pods in Delta county to write him at the address given above and said that he will call on them and advise on methods of drying. When the pods are ready he will purchase and pay for them.

"While there is some milkweed growing in Delta county, there is not enough to call for establishing purchasing stations," Marsieck said.

The southern half of Menominee county was reported by Marsieck to be heavy in milkweed plant growth, and he expects that area will produce most of the crop for the district. There is some in Delta, Dickinson and Schoolcraft counties, but light compared with Menominee.

More than 500,000 former pupils of New York City's public schools are now in the armed services.

Office Service Co.

ODT Headquarters Will Be Opened In Escanaba

In a reshuffling of district offices and field offices of the Office of Defense Transportation within the Chicago region, embracing portions of eight states, a new district office of the ODT will be established at Escanaba, probably this coming week. It has been announced.

The new office of the ODT at Escanaba will be in charge of the upper peninsula district. Previously the upper peninsula was a part of the ODT district that embraced a portion of Wisconsin, with district offices at Green Bay.

The Escanaba ODT office will have a personnel of 13 persons, headed by Albert G. Wepler, district director. Wepler was formerly district manager of the ODT at Quincy, Ill., one of the district offices being eliminated in the reshuffling. Assistant director will be Fred Wray, who held a similar position in the ODT district office at Mason City, Iowa.

Coordination of Activities
The location of the ODT offices in Escanaba has not been definitely determined, but it is likely that the headquarters will be established in the First National Bank building.

The reshuffling of the ODT offices within the Chicago district is being accomplished in order to create ODT district boundaries to coincide as far as possible with the OPA districts, and also to establish headquarters in the same communities where OPA district headquarters are now operating. This is being done because of the increased coordination in activities of the two federal war agencies.

In the future ODT will devote its major program to transportation problems rather than to com-

mercial gasoline ration functions, a portion of which will be handled by OPA offices in the future.

Under the new procedure, applications for commercial motor vehicle operators for temporary allotments of gasoline necessary for the quarter will be made to OPA ration boards rather than ODT district offices.

Applications for certificates of war necessity or for permanent changes in gas allotments will continue to be handled by the ODT district offices. The majority of current applications, however, are for temporary allocations.

In addition to the Escanaba office, a new office of ODT within the Chicago district will be opened at Sioux City, Iowa. Under the new setup, district ODT offices will be located at Chicago, Springfield and Peoria, Ill.; Davenport, Des Moines and Sioux City, Iowa; Minneapolis and Duluth, Minn.; Milwaukee, Green Bay and La Crosse, Wis.; Omaha and North Platte, Nebr.; Fargo, N. D.; Sioux Falls, S. D.; and Escanaba, Mich.

Field offices will be maintained at the following eight cities where district ODT offices formerly were located: Cairo, Danville and Rockford, Ill.; Madison and Wausau, Wis.; Mason City, Iowa; Bismarck, N. D.; and Pierre, S. D. Office equipment for the Escanaba district ODT office will be forwarded to this city from the Quincy, Ill., office that is being closed.

A. J. LANCOUR DIES SUDDENLY

Was Employed As Millwright At Veneer Plant

Archie J. Lancour, 59, of 909 Sixth avenue south, died at 6:30 o'clock at his home, following a few hours' illness.

Mr. Lancour was born in Perkins on July 23, 1885, and was a life-long resident of Delta county. His marriage to Louise Landre took place in Rapid River on August 22, 1905.

He was employed here as a millwright carpenter for the Birds Eye Veneer company.

He was a member of St. Anne's parish and of the Holy Name society of the church.

Surviving are his wife, and one son, Arnold; his father, Selim Lancour of Rapid River; eight grandchildren: four brothers, Paul and Edward of Treary; Henry of Turin and William, of Rapid River; and one sister, Mrs. Edward Landre, of Rapid River.

The body was taken to the Alto funeral home where it will be in state this evening. Funeral services will be held at St. Anne's church, with Rev. Fr. Joseph E. Guertin officiating, Tuesday morning at 9 o'clock, and burial will be in St. Anne's cemetery.

Daughters of Isabella of Trinity Circle will meet at the funeral home Monday afternoon at 3:30 to recite the rosary.

Freight Waterways

The Suez Canal is considered a great freight-carrying body of water, but the Allegheny and Monongahela rivers, in the Pittsburgh area, carried 4,000,000 tons more freight than the Suez Canal in the last published records.

Careless smoking and disposal of matches cause more than one-fourth of the home fires in the United States.

Former Resident Dies In Elgin, Ill.

Charles Jorgensen, 90, former Escanaba resident, died Saturday at the home of his daughter, Mrs. Earl Hansen in Elgin, Ill. John H. Jorgensen, 625 South Fourteenth street, Escanaba, is one of six surviving children. The others are Chris, Pontiac; Charles, Dayton, Wash.; Andrew, Los Angeles, Calif.; Mrs. Earl Hansen and Mrs. Arthur Jacobson, Elgin, Ill.

Surviving also are 12 grandchildren. Mrs. Jorgensen's wife died two years ago.

Charles Jorgensen was born in Norway on June 8, 1854. He came to this country about 55 years ago, coming directly to Escanaba, and was a resident here until 16 years ago. He was a member of the North Star lodge.

Mr. and Mrs. John Jorgensen are planning to attend the funeral which probably will be held Tuesday in Elgin, Ill.

News From Men In The Service

Melvin A. Olson, Sr., 24, Lake Shore Drive, Escanaba, Mich., was enrolled recently in a course at the Amphibious Fireman Naval Training School, located on the campus of the University of Illinois, Urbana, Ill.

Selection to attend the specialty school is based on results of recruit training aptitude test scores.

Pfc. George Bruckardt until recently located at Fort Jackson, South Carolina, has been promoted to rank of Corporal according to word received by his parents at Wilson.

Mr. and Mrs. Frank Newhouse have been informed that their son, Cpl. Robert Newhouse, has arrived safely in Italy and has been promoted to the rank of Staff Sergeant. Sgt. Newhouse is a turret gunner on a B-24.

The nearly worthless lands assigned Indians in Oklahoma years ago have since made the Indians fabulously wealthy through oil discoveries.
